Director;

Please file this objection to comply with the appropriate rules.

We seriously object to the amendment applied for by MSM Utilities, LLC for Water Certificate No. 661-W and Wastewater Certificate No.527-S.

COMMISSION CLERK

05 NOV -7 PM 3:10

RECEIVED FPSC

August 13, 2004 after Hurricane Charley destroyed our home at 29325 Turbak Dr., Punta Gorda, Florida-33982. We cleared the debris from our property at our own cost. The water well and the septic system are in place which we fully intend to use when a new home is established. At that time we will follow Charlotte County codes with permits and comply with all the standards set forth by these Government Agencies.

Maintaining our own well and septic system we have a better chance of a water supply in case of another natural disaster, instead of relying on a single privately owned service.

We also object to a private development (MSM Utilities, LLC) attempting to force us into further financial stress than we already have had from the hurricane in 2004, thru state intervention, to financially assist in the further development of property.

The majority of these property owners are retired living on fixed incomes, who cannot afford a service that only benefits a private company. This annexation would increase significant cost to our property and tax liability.

Sincerely;
Edward Chojnowski
