Tallahassee, FL 32399-0850

Director,

I would like to go on record as objecting to the application by MSM Utilities, LLC to amend its Water Certificate No. 611-W and its Waste Water Certificate No. 527-S on the basis that information on this has been non-existent. A short legal notice sent to me on the 19th of October, 2005 is the only notification received.

I am retired and living on a fixed income and don't need the added expense of a new system as my current water and sewage system is satisfactory.

Thank you,

Mary A. Uptegraff
