Re: Legal Notice

Re: Maltese Developments, Inc.
Water Certificate No. 611-W & Wastewater Certificate No. 527-S, Charlotte County, FL

Attn: Director

In answer to a letter from Maltese Developments, Inc. given on October 18, 2005, and received on October 23, 2005, this letter will serve as our official written reply.

1. As homeowners in the affected 'territory' as proposed to be added as per the application of MSM Utilities, LLC, we wish to make known our opposition.
2. It is our considered opinion that this particular part of the proposed addition (Bryan Way, in its entirety, and our residence, specifically) is not desirous of inclusion.
3. Our recently upgraded septic and water systems (in 2004) will serve us in good stead as they are. Both of these systems will not need upgrading or replacing for the foreseeable future.

CMP _____ 4. The paved road, Bryan Way, is private. Property lines of all lots extend to the center of the roadway. To my knowledge, there are no easements available for a private utility company to utilize along this route.
