COMMISSION CLERK

President or CEO of MSM Utilities, LLC
9696 Bonita Beach Road, Suite 210
Bonita Springs, FL 34135

Director, Division of the Commission Clerk & Administrative Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850
Reference: Charlotte County

Dear Sir or Madam:

With the lack of information provided in your notice, it is very hard to endow with particulars of our objection to this dictatorial decision made by your respective department. The one thing we know is that whatever you are planning is not going to be a benefit to us. In fact, we are sure that this is just another way to increase our taxes in the near future.

The extent of the county services to our area is our regular refuse pick up twice a week and police and fire when we summon them.

After the hurricane Charley we all have new water systems and because 90% of our homes are less than ten years old, our septic systems are new as well. We can speak for our neighborhood and we can tell you that we are environmental conscious, always finding ways to preserve the natural beauty of our area. This is precisely why we reside out-of-the-way from the city.

We do not need your wastewater changes; that we can almost guarantee will be to benefit a third parties.

Take this letters as a formal objection and please affix to all the other resident's letters in our area, objecting to your plan.

Dear Sir or Madam:

We have received the Legal Notice (p. 3 of 5) informing us of your company's wishes to amend Water Certificate NO. 611-W and Wastewater Certificate NO. 527-S to our residential area. The following is our objection to this plan and the grounds for our objection.

We feel this notice is vague, nondescript and NOT in our best interest! Therefore, as homeowners in this area, we DO NOT agree to any such water changes. **This is our formal objection to your desired plan!**

The area of Rio Paz Ranches (Township Section 12) is a private owned road. We are not maintained by Charlotte County. At this time, the only service benefits we receive from the county are biweekly trash collection and police/fire assistance, if called.

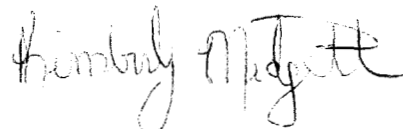

Because most of the houses in our neighborhood are less than 10 years old, our present water systems are sufficient. In addition, many homes have had brand new systems installed following Hurricane Charley in August, 2004. Changing our current water status is NOT in the interest of us, the homeowners in this area.

Please take this letter as our official objection to your plan for our area.

If you have any questions regarding this letter, please contact us at the address/phone number above.

Sincerely,

Kenneth and Kimberly Midgett
