<sup>1</sup> 47 U.S.C. Sec. 214(e)(2); 47 U.S.C. Sec. 214(e)(6).

<sup>2</sup> 47 C.F.R. Sec. 54.101-54.207.

## I. Background

1. Nexus is an Ohio corporation and is authorized to conduct Business as a foreign corporation in the State of Florida.<sup>3</sup> Copies of the Company's Articles of Incorporation and authority to transact business in the State of Florida are on file with the Commission and incorporated herein by reference. The Company has been certified by the Commission as a Competitive Local Exchange Carrier ("CLEC") in Florida (Docket No. 040275-TX). The principal office of the Company is located at 3629 Cleveland Ave., STE C, Columbus, OH 43224. The Company provides local exchange, exchange access services and wireless services in Verizon, Sprint, and BellSouth exchanges using a combination of unbundled network elements ("UNEs") provided by Verizon, Sprint, and BellSouth that allows end-to-end switching delivery of calls.

2. As set forth in Section 214(e)(2) of the Act, the Commission "shall upon its own motion or upon request designate a common carrier that meets the requirements of [Section 214(e)(1)] as an eligible telecommunications carrier for a service area designated by the State commission."<sup>4</sup>

---

<sup>3</sup> Nexus Communications, Inc., was incorporated in the State of Ohio on 9/11/2000 (Charter/Organization ID: 1180608) and was authorized to conduct business in the state of Florida as Nexus Communications TSI, Inc., on 3/9/2004 (Document No. F04000001307).

<sup>4</sup> 47 U.S.C. Sec. 214(e)(2); see 47 C.F.R. 54.201(b) (FCC Rules citing the Act's requirements).

Upon designation as an ETC, the carrier shall be eligible to receive universal support in accordance with Section 254 of the act.<sup>5</sup>

3. The requirements for designation as an ETC set forth in Section 214(e)(1) are that the carrier must:

(A) offer the services that are supported by Federal universal support mechanisms under section 254(c), either using its own facilities or a combination of its own facilities and resale of another carrier's services (including the services offered by another eligible telecommunications carrier); and

(B) advertise the availability of such services and the charges therefore using the media of general distribution.<sup>6</sup>

## **II. Nexus Satisfies the Requirements for Designation as an ETC to Serve the Designated Area**

4. Nexus is a common carrier as that term is defined in the Act.<sup>7</sup> The Company provides competitive local telecommunications services in the state of Florida in accordance with Certificate 040275-TX which was granted on 5/28/2004 .

5. Nexus offers all of the supported services enumerated under Section 254(c) using facilities obtained as UNEs from Verizon, Sprint, and BellSouth. According to FCC Rules, facilities obtained as UNEs satisfy the requirement that an ETC provide the supported services using either its own facilities or a combination of its own

<sup>5</sup> 47 U.S.C. Sec. 214(e)(1).

<sup>6</sup> *Id.*

<sup>7</sup> See 47 U.S.C. Sec. 153(10) ("the term 'common carrier' or 'carrier' means any person engaged as a common carrier for hire, in interstate or foreign communication by wire or radio or in interstate or foreign radio transmission of energy . . .").

facilities and resale of another carrier's services.<sup>8</sup> Accordingly, the Company satisfies the requirement set forth in Section 214(e)(1)(A).

6. The services that are supported by Federal universal support mechanisms under section 254(c) are enumerated in the rules of the Federal Communications Commission ("FCC") at 47 C.F.R. Sec. 54.101(a)(1)-(9). These services are:

- a) Voice grade access to the public switched network. "Voice grade access" is defined as a functionality that enables a user of telecommunications services to transmit voice communications, including signaling the network that the caller wishes to place a call, and to receive voice communications, including receiving a signal indicating there is an incoming call. For the purposes of this part, bandwidth for voice grade access should be, at a minimum, 300 to 3,000 Hertz;
- b) Local usage. "Local usage" means an amount of minutes of use of exchange service, prescribed by the FCC, provided free of charge to end users;
- c) Dual tone multi-frequency signaling or its functional equivalent. "Dual tone multi-frequency" (DTMF) is a method of signaling that facilitates the transportation of signaling through the network, shortening call set-up time;

---

<sup>8</sup> Section 54.201(f) of the FCC's Rules states, "[f]or the purposes of this section, the term 'own facilities' includes, but is not limited to, facilities obtained as unbundled network elements pursuant to Part 51 of this chapter, provided that such facilities meet the definition of the term 'facilities' under this subpart." 47 C.F.R. Sec. 54.201(f). The term "facilities" under Section 54.201 is defined as "any physical components of the telecommunications network that are used in the transmission or outing of the services that are designated for support pursuant to subpart B of this part." 47 C.F.R. Sec. 54.201(e). Nexus's use of Verizon, Sprint, and BellSouth's UNEs meets this definition of "facilities."

- d) Single-party service or its functional equivalent. "Single-party service" is telecommunications service that permits users to have exclusive use of a wireline subscriber loop or access line for each call placed, or, in the case of wireless telecommunications carriers, which use spectrum shared among users to provide service, a dedicated message path for the length of a user's particular transmission;
  
- e) Access to emergency services. "Access to emergency services" includes access to services, such as 9 11 and enhanced 9 11, provided by local governments or other public safety organizations. 91 1 is defined as a service that permits a telecommunications user, by dialing the three-digit code "911" to call emergency services through a Public Service Access Point (PSAP) operated by the local government. "Enhanced 91 1" is defined as 911 service that includes the ability to provide automatic numbering information (ANI), which enables the PSAP to call back if the call is disconnected, and automatic location information (AH), which permits emergency service providers to identify the geographic location of the calling party. "Access to emergency services" includes access to 911 and enhanced 91 1 services to the extent the local government in an eligible carrier's service area has implemented 91 1 or enhanced 91 1 systems;

- f) Access to operator services. "Access to operator services" is defined as access to any automatic or live assistance to a consumer to arrange for billing or completion, or both, of a telephone call;
- g) Access to interexchange service. "Access to interexchange service" is defined as the use of the loop, as well as that portion of the switch that is paid for by the end user, or the functional equivalent of these network elements in the case of a wireless carrier, necessary to access an interexchange carrier's network;
- h) Access to directory assistance. "Access to directory assistance" is defined as access to a service that includes, but is not limited to, making available to customers, upon request, information contained in directory listings; and
- i) Toll limitation for qualifying low-income consumers. Toll limitation for qualifying low-income consumers.

7. Upon designation as an ETC, Nexus will participate in, and offer, LifeLine and Link-Up programs to qualifying low-income consumers and publicize the availability of Lifeline and Link-Up services in a manner reasonably designed to reach those likely to qualify for those services, as required by FCC Rules.<sup>9</sup> Attached hereto as **Exhibit A** and incorporated herein by reference are copies of Nexus's proposed Lifeline and Linkup tariff to be filed with the Commission upon approval.

---

<sup>9</sup> See 47 C.F.R. Sec. 54.401-54.417; 54.405(b)& 54-411(d).

8. Nexus will advertise the availability of the above-referenced services and the charges for those services in the Designated Area using media of general distribution, as required by FCC Rules.<sup>10</sup>

9. Nexus is financially qualified and committed to providing high quality telecommunication services within the state of Florida. Upon request Nexus will provide the previous year's financial statements. The financial statements of Nexus contain proprietary and confidential information not generally available to the public and thus will be marked as confidential and will be submitted under seal to be maintained by the Commission and Commission staff on a confidential basis pursuant to the Commission's current rules.

10. Attached as **Exhibit B** and incorporated herein by reference is a description of Nexus' managerial and technical capabilities to provide the supported services in the context of its application to become an Eligible Telecommunications Carrier.

11. Attached as **Exhibit C** to this Petition and incorporated herein by reference is the certification of Steven Fenker, President of Nexus certifying that the Company satisfies all of the requirements for designation as an ETC to serve the Designated Area.

### **III. Area for Which ETC Designation is Requested**

<sup>10</sup> See 47 C.F.R. Sec. 54.201(d)(2).

12. Nexus has served and will continue to serve the exchanges where it leases UNEs or resells the services of the non-rural telephone companies, Verizon, Sprint, and BellSouth, in the state of Florida. Nexus does not seek designation as an ETC in any areas served by rural telephone companies Pursuant to the Order in Docket No. 040275-TX, the Company does not provide local exchange service in any area served by any Independent telephone company. The exchanges in the Verizon, Sprint, and BellSouth service areas that Nexus serves and for which it seeks ETC designation are attached as **Exhibit D**.

#### **IV. Granting Nexus's Petition will Serve the Public Interest**

13. Congress requires that the Commission grant competitive ETC petitions in non-rural areas.<sup>11</sup> No specific public interest test is mentioned, as is the case for areas served by rural telephone companies.<sup>12</sup> Thus, the Act provides that the Commission "shall" designate Nexus as an ETC upon finding that the company meets the nine- point list of services and that it agrees to advertise the supported services throughout the designated service area. Notwithstanding, the designation of Nexus as an ETC will serve the public interest.

14. A central purpose of the Telecommunications Act of 1996 was to "promote competition and reduce regulation . . . [thereby securing] lower prices and higher quality services ... and encourage the rapid deployment of new telecommunications technologies."<sup>13</sup> Designation of Nexus as an ETC would further these goals. Granting ETC status to Nexus would allow the Company to obtain federal universal service support, which it will use to offer innovative

telecommunications services at competitive prices to rural consumers in Verizon, Sprint, and BellSouth service areas.

15. Nexus will announce and advertise telecommunications services as an ETC where it provides service in the Verizon, Sprint, and BellSouth service areas in Florida and will publicize the availability of Lifeline and Link-Up services in a manner reasonably designed to reach those likely to qualify for those services. Accordingly, more low-income Florida residents will be made aware of the opportunities afforded to them under the Lifeline and Link-Up programs and will be able to take advantage of those opportunities by subscribing to Nexus' service.

16. Nexus is a contributor to the Federal Universal Service Fund.
