Not yet - or did they forget to tell me?

As for 040956 - that will be ECR's - but if ok with Connie, I'll like have someone on as an OCR just so that we keep up-to-date on changes occuring in the tariffs.

Subject: Petition of Central Florida Gas Company--Chesapeake Utilities

The attached bulletin has been mailed to elected city, county, and legislative officials representing all affected areas.

11/24/2004

NOVEMBER 23, 2004

FLORIDA PUBLIC SERVICE COMMISSION **BULLETIN**

PROVIDED TO GOVERNMENT OFFICIALS

Petition of Central Florida Gas Company -

Florida Division of Chesapeake Utilities Corporation

for Authority to Establish New Customer Classifications and Restructure Rates,
and for Approval of Proposed Revised Tariff Sheets

DOCKET NO. 040956-GU

On August 25, 2004, Central Florida Gas Company (Central Florida or the company) filed a request with the Florida Public Service Commission (PSC or Commission) for authority to establish new customer classifications and to restructure its existing rates. Central Florida serves approximately 11,000 residential, commercial and industrial customers throughout central and north Florida. In 1985, Central Florida joined Chesapeake Utilities Corporation adding customers in the citrus industry, tourist attractions and construction. Central Florida has customer service centers in the cities of Winter Haven, Hernando, and St. Cloud, Florida.

The current case is being processed under the PSC's "Proposed Agency Action" (PAA) procedure. Under the PAA process, the case will not be set for a formal hearing unless a timely protest to the Commission's proposed agency action is filed.

Under Central Florida's proposal, the total revenues collected by the company would not change. In addition, for those existing customers who use less than 3,000 therms per year (an average of 250 therms per month) rates would not be affected. However, the company is proposing to expand its customer classifications for customers using more than 100,000 therms per year and to adjust the rates within certain commercial and industrial classifications. Thus, some customers would see rate increases under the company's proposal.

The proposed rate restructuring also would recover a greater percentage of the cost to provide service to customers from the company's monthly fixed-rate customer charges. At present, the majority of the company's cost to serve large users is recovered from variable charges based on a customer's monthly therm usage. Under the company's proposal the monthly fixed-rate customer charge would increase and the per-therm transportation charge would decrease for customers using more than 3,000 therms per year. This change will not affect current customers using less than 3,000 therms per year.

The company has also proposed to close its existing TS-1A and TS-1B rate schedules to new customers. The TS-1A rate is applicable to customers who use between 0 and 130 therms per year, and the TS-1B rate is applicable to customers who use between 131 and 250 therms per year. Existing TS-1A and TS-1B customers' rates will not change, however, any future customers whose annual usage ranges between 0 and 500 therms would be served under a new proposed Firm Transportation Service rate class (FTS-1).

In addition to the rate restructuring, the company is also proposing additional changes which would:

- Establish two new customer classifications for gas marketers delivering gas to the company's distribution system and the implementation of rates that recover the cost to provide service to marketers.
- ◆ Shift the recovery of certain revenues from the company's Competitive Rate Adjustment (CRA) surcharge to base rates.
- ◆ Remove the recovery of certain environmental costs from base rates and establish a flexible, variable rate surcharge mechanism to recover future costs of this type.
- Require customers to pay fixed monthly customer charges during those months in which the customer has terminated service for less than 12 months.

The staff of the PSC has scheduled four customer meetings on December 8 and 9, 2004 in the utility's service area to provide customers the opportunity to express their views regarding Central Florida's request.

PSC staff is scheduled to make a recommendation to the Commission on January 6, 2005. The Commissioners are expected to vote on this matter at the January 18, 2005, Agenda Conference.

 Florida Gas Company — Florida Division of Chesapeake Utilities
 Corporation**

TALLAHASSEE — The staff of the Florida Public Service Commission (PSC or Commission) will conduct four customer meetings on Wednesday, December 8 and Thursday, December 9, 2004, to accept comments and answer questions from consumers about a proposal for new customer classifications and a rate restructuring plan submitted by Central Florida Gas Company (Central Florida or utility). The proposal will not affect the rates of existing customers who use less than 3,000 therms of natural gas per year.

Central Florida provides natural gas service to approximately 11,000 residential, commercial and industrial customers throughout central and north Florida.

All customers of this utility are invited to attend the meetings, which will be held at the following times and locations:

Wednesday, December 8, 2004

10:00 a.m. to 12:00 p.m.
 Chain O' Lakes Complex
 210 Cypress Gardens Boulevard
 Winter Haven, Florida

3:00 p.m. to 5:00 p.m.
