In re: Petition for Expedited Review of Growth) Docket No. _____
Code Denials by the North American Numbering)
Administration for the Belleview Exchange) Filed: January 11, 2006

_____)

PETITION FOR EXPEDITED REVIEW OF NXX-X CODE DENIAL

Sprint-Florida, Incorporated (“Sprint”), pursuant to 47 C.F.R § 52.15(g)(iv), Federal Communications Commission (“FCC”) Order FCC 00-104, and Florida Public Service Commission (“Commission”) Order No. PSC-01-1973-PCO-TL, petitions the Commission to review the Pooling Administrator’s (“NeuStar”) denial of Sprint’s requests for additional numbering resources in the Belleview Exchange. In support of this petition, Sprint states:

PARTIES

1. Sprint is an incumbent local exchange company (“ILEC”) regulated by the Commission and authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.
2. NeuStar is an independent non-governmental entity, which is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R § 52.20(d)

JURISDICTION

3. The Commission has jurisdiction of this matter pursuant to the Industry Numbering Committee’s (INC) Number Pooling Guidelines Sections 3.7 and 12(c). This provision provides that a carrier may challenge NeuStar’s decision to deny numbering resources to the appropriate regulatory authority.

FPSC-COMMISSION CLERK

BACKGROUND AND REQUEST FOR RELIEF

4. On March 31, 2000, the FCC issued Order No. 00-104 (“FCC 00-104” or the “Order”) in the Numbering Resource Optimization docket (Docket No. 99-200). The goal of FCC 00-104 was to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of telephone numbers and to avoid further exhaustion of telephone numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring rate center based utilization rates to be reported to NANPA. FCC Order at § 105. The FCC further required that, to qualify for access to new numbering resources, applicants must establish that existing numbering inventory within the applicant’s rate center will be exhausted within six months of the application. Prior to the ruling, the Central Office Code Assignment Guidelines, used by the industry and NANPA to make code assignments, required the applicant’s existing number inventory within the applicant’s serving switch to exhaust within a specific months-to-exhaust (“MTE”) of the code application in order for a code to be assigned or for the carrier to prove that it was unable to meet a specific customer’s request with its current inventory of numbers. The FCC stated that the shift to a “rate center” basis for determining the need for new numbering resources was intended to “more accurately reflect how numbering

resources are assigned” and to allow “carriers to obtain numbering resources in response to specific customer demands.” FCC Order at ¶ 105.

6. On December 29, 2000, the FCC also released FCC 00-429, which reaffirmed FCC 00-104 and required carriers to also meet a 60 percent initial utilization threshold. FCC 00-429 at ¶ 26. Based on these two FCC orders, carriers are required to meet six MTE criteria as well as a utilization threshold on a rate center/exchange basis in order to be granted additional numbering resources. *Id.* At ¶ 29.
7. In FCC 00-104, the FCC directed the industry and the Pooling Administrator to comply with the INC Pooling Guidelines. FCC 11-104 ¶ 183. Pursuant to the INC Guidelines, in order to obtain thousand-block allocations, the carrier must demonstrate that its existing numbering resources for the rate center will exhaust within six (6) months and also have a utilization of 75 percent for the specific rate center. *See* INC Guidelines Section 4.3 (c) [THOUSANDS-BLOCK NUMBER (NXX-X) POOLING ADMINISTRATION GUIDELINES (TBPAG) dated May 20, 2005] and Appendix 3. These requirements are known as the six (6) months-to-exhaust (“MTE”) and utilization threshold.
8. Sprint has utilized mechanisms such as number pooling to manage its numbering resources in the most efficient manner. However, Sprint is required in this instance to petition the Commission for relief.
9. On May 25, 2001, BellSouth petitioned the Commission to develop an expedited process to review NANPA’s denial of a request for additional

numbering resources to minimize the delay carrier's experience in attempting to challenge a denial by NANPA. As a result of BellSouth's Petition and the Commission's efforts to make numbering resources available to carriers, the commission issued Order No. PSC-01-1973-PCO-TL setting forth an expedited code denial process. On March 15, 2002, the Commission issued Order No. PSC-02-0352-PAA-TL adopting the same expedited code denial process for pooling areas.

10. The Belleview Exchange consists of one (1) central office and one (1) switching entity that utilizes numbering resources.
11. On December 20, 2005 Sprint requested additional numbering resources from NeuStar for the Belleview exchange. See Attachment 1. Specifically, in order to meet the telephone number needs of one of its customers, Sprint requested 100 consecutive numbers in the Belleview (BLVWFLXADS0) wire center. The customer has requested 100 consecutive numbers. Sprint cannot currently meet this request given the inventory of numbers available at this time in this switch.
12. At the time of the code request, the Belleview exchange had a MTE of 14.2 and a utilization of 93%. There are no blocks of un-assigned numbers large enough to meet the request of this customer in this switch.
13. On December 20, NeuStar denied Sprint's request for additional numbering resources because Sprint had not met the MTE criteria, notwithstanding the fact that Sprint's Belleview switch does not have an available block of 100 consecutive numbers to meet

the customer's requirements and the fact that the Belleview switch utilization is at 93%. See Attachment 1.

14. Sprint's request for additional numbering resources to meet this customer's requirement in the Belleview Exchange would not materially impact exhaustion of available numbers in the 352 area code.
15. As discussed above, both the FCC Order and INC guidelines provided that state regulatory authorities have the power and authority to review NANPA's decision to deny a request for numbering resources. See INC Number Pooling Guidelines Sections 3.7 and 11.1(c).
16. Under earlier procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NeuStar and NANPA look at the MTE criteria and utilization threshold for the rate center and allow exceptions. The current process is arbitrary and may result in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.
17. Sprint's inability to provide this customer with the requested numbers prevents Sprint from providing the quality of service this customer desires and expects.
18. This Commission has previously received similar requests from numerous carriers, both ILECs and CLECS in which the carriers have asked the PSC to

overrule a decision of NANPA and NeuStar. The Commission has granted these requests.

19. Sprint requests that the Commission reverse NeuStar's decision to withhold numbering resources from Sprint on the following grounds:

- (a.) NeuStar's denial of numbering resources to Sprint interferes with Sprint's ability to service its customers within the State of Florida.
- (b.) As a result of NeuStar's denial of Sprint's request for additional numbering resources, Sprint will be unable to provide telecommunications services to its customers as required under Florida law.

WHEREFORE, Sprint requests:

- 1. The Commission review the decision of NeuStar to deny Sprint's request for additional numbering resources for the Belleview exchange, and
- 2. The Commission direct NeuStar to provide the requested numbering resources for the Belleview exchange as discussed above.

Respectfully submitted this 11th day of January, 2006

Sprint-Florida, Incorporated's Request for Confidential Classification
Pursuant to Section 364.183(1), Florida Statutes

Sprint-Florida, Incorporated (hereinafter, "Sprint") hereby requests that the Florida Public Service Commission ("Commission") classify certain documents and/or records identified herein as confidential, exempt from public disclosure under Chapter 119, Florida Statutes and issue any appropriate protective order reflecting such a decision.

1. The information that is the subject of this request is proprietary customer information or information that is confidential and proprietary to Sprint, the release of which would impair the competitive business of Sprint. Sprint is filing this request pursuant to Rule 25-22-2006, F.A.C. The following documents or excerpts from documents are the subject of this request:

Highlighted information in Attachment 1 to Sprint's Petition for Expedited Review of NXX-X Code Denial

2. Two redacted copies of the information are attached to this request. One unredacted copy of the confidential information was filed under seal with the Division of Records and Reporting on under separate cover on this same date. Confidential information is highlighted in yellow.

3. The information for which the Request is submitted is customer information that Sprint is required by law to keep confidential or information the release of which would

impair Sprint's competitive business interests and is confidential and proprietary to Sprint. Specific justification for confidential treatment is set forth in Attachment A.

4. Section 364.183(3), F.S., provides:

- (3) The term "proprietary confidential business information" means information, regardless of form or characteristics, which is owned or controlled by the person or company, is intended to be and is treated by the person or company as private in that the disclosure of the information would cause harm to the ratepayers or the person's or company's business operations, and has not been disclosed unless disclosed pursuant to a statutory provision, an order of a court or administrative body, or private agreement that provides that the information will not be released to the public. The term includes, but is not limited to:
 - (a) Trade Secrets.
 - (b) Internal auditing controls and reports of internal auditors.
 - (c) Security measures, systems, or procedures.
 - (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the company or its affiliates to contract for goods or services on favorable terms.
 - (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information.
 - (f) Employee personnel information unrelated to compensation, duties, qualifications, or responsibilities.

5. The subject information has not been publicly released by Sprint.

Based on the foregoing, Sprint respectfully requests that the Commission grant the Request for Confidential Classification, exempt the information from disclosure under Chapter 119, Florida Statutes and issue any appropriate protective order, protecting the information from disclosure while it is maintained at the Commission.

RESPECTFULLY SUBMITTED this 11th day of January, 2006.
