-M-E-M-O-R-A-N-D-U-M- COMMISSION CLERK

DATE: March 27, 2006  
TO: Katherine Fleming, Attorney, General Counsel  
FROM: Division of Regulatory Compliance and Consumer Assistance (Freeman, Vandiver)  
RE: Docket 060002-EG, Recommendation concerning Florida Power & Light Company's (FPL) request for extension of confidential classification concerning a portion of the staff working papers prepared during "FPL Energy Conservation Cost Recovery Clause Audit for the Year Ended December 31, 2001", Audit Control No. 02-064-4-1, Documents Numbered 07733-02 and 02446-06

On July 16, 2002, when copies of certain portions of staff's working papers obtained or prepared during the "FPL Energy Conservation Cost Recovery Clause Audit for the Year Ended December 31, 2001", were delivered to FPL at the audit exit conference, the utility requested that these materials be temporarily exempted from public access in accordance with the provisions of Rule 25-22.006(3)(a)2., Florida Administrative Code (FAC).

On July 24, 2002, staff filed document 07733-02 consisting of those specified portions of the staff working papers.

On July 30, 2002, FPL filed a request pursuant to Section 366.093, Florida Statutes (F.S), and Rule 25-22.006, FAC, that selected portions of the working papers prepared by the staff during the audit receive confidential classification. The utility's request included redacted copies for public inspection (document 07954-02) and highlighted copies (document 07953-02).

IMP \_\_\_\_\_ On October 10, 2002, after discussions with the staff, FPL reduced the amount of material for which confidential protection was requested. In support of this change, FPL filed revised, COM \_\_\_\_\_ redacted copies of this material for public inspection (Exhibit B, document 11028-02) and filed TR \_\_\_\_\_ revised copies with the sensitive information highlighted (document 11029-02).

CR \_\_\_\_\_ On October 31, 2002, Commission Order No. PSC-02-1493-CFO-EG was issued in docket CL \_\_\_\_\_ 020002-EG granting the utility's request, as modified, and providing 18 months confidential PC \_\_\_\_\_ classification for the specified material.

CA \_\_\_\_\_ On April 16, 2004, FPL filed a first request for extension of the confidential classification for CR \_\_\_\_\_ material granted by Commission Order PSC-02-1493-CFO-EG.

CA \_\_\_\_\_ On August 27, 2004, Commission Order No. PSC-04-0841-CFO-EG was issued in docket EC 1 \_\_\_\_\_ 040004-EG granting a 1st extension of 18 months to specific portions of documents 07733-02, H Lockard 07953-02 and 11029-02. This 18 month period has now tolled.

DOCUMENT NUMBER-DATE

02756 MAR 28 06

March 27, 2006  
Florida Power & Light Request for Extension

On February 27, 2006, 18 months after Commission Order PSC-04-0841-CFO-EG had been issued, the Commission's Bureau of Records returned documents 07953-02 and 11029-02 to FPL. These documents were originally filed by FPL to meet the requirement that copies of the sensitive material be filed with the confidential information highlighted.

Also on February 27, 2006, FPL requested that the confidential classification granted by Commission Order PSC-04-0841 to identified portions of documents 07733-02, 07953-02 and 11029-02 be extended for another 18 month period.

On March 8, 2006, FPL withdrew its February 27, 2006, request for a second extension of confidential classification for this material. The utility presumed that the confidential materials, copies of staff's audit working papers, had been returned to FPL (Documents 07953-06 and 11029-02). This was not the case as staff's original working papers will remain on file for 25 years (Document 07733-02).

Later on March 8, 2006, after discussions with the staff concerning the facts in this case, the utility advised the staff to disregard the withdrawal and to proceed with the request for a second extension of confidential classification for this material.

Staff advised FPL that their filing for a second extension of confidential classification was incomplete. Documents 07953-02 and 11029-02 which provided highlighted copies of the sensitive information would have to be returned to the Commission.

On March 20, 2006, the utility filed copies of the sensitive material with the confidential information highlighted (Document 02446-06). This filing completes FPL's request for a second extension of confidential classification.

Documents 07332-02 and 02446-06 are held by the Bureau of Records in a confidential status awaiting the response to FPL's request for a second extension of confidential classification. Document 11028-02, Exhibit B, is a public document providing a redacted public copy of this information.

Pursuant to Section 119.07, F.S., documents submitted to this Commission are public records. The only exceptions to this law are specific statutory exemptions and exemptions granted by governmental agencies pursuant to the specific items of a statutory provision. Subsections 366.093(3)(b) and (e), F.S., provide the following exemptions.

March 27, 2006  
Florida Power & Light Request for Extension

Subsection 366.093, F.S., provides; “Proprietary confidential business information means information, regardless of form or characteristics, which is owned or controlled by the person or company, is intended to be and is treated by the person or company as private in that the disclosure of the information would cause harm to the ratepayers or the person’s or company’s business operations, and has not been disclosed unless disclosed pursuant to a statutory provision, an order of a court or administrative body, or private agreement that provides that the information will not be released to the public. Proprietary confidential business information includes but is not limited to:

(b) Internal auditing controls and reports of internal auditors

....

(e) Information relating to competitive business interests, the disclosure of which would impair the competitive business of the provider of the information....”

According to Section 366.093, F.S., and Rule 25-22.006, FAC, the utility has the burden of demonstrating that materials qualify for confidential classification. According to Rule 25-22.006, FAC, the utility must meet this burden by demonstrating that the information is proprietary confidential business information, the disclosure of which will cause the utility, the provider of the information or the ratepayer harm.

#### **Staff Analysis of the Request**

FPL’s request meets the requirements set out by Rule 25-22.006(4), FAC:

The request is clearly stated in writing;

The justification as to which material should be considered for confidential treatment is identified by page and line;

A copy of the information is provided with the confidential information highlighted;

Two public copies of the information with the confidential information redacted is provided; and

An affirmative statement is provided reporting that the information is intended to be and is treated as private and has not been disclosed.

March 27, 2006  
Florida Power & Light Request for Extension

**Recommendation concerning the granting of a confidential classification to the sensitive materials**

Reading the filing reveals FPL claims the sensitive material which pertains to information from an audit of 2001 materials is not considered dated or stale. The material consists of:

- 1). Internal auditing controls and reports of internal auditors.

Witness Robert Onsgard, FPL Manager, Internal Auditing, identifies material concerning reports of internal auditors and internal auditing controls within FPL's request. Specifically Mr. Onsgard identifies internal auditing materials within staff working papers entitled: "Internal Audits" and "Notes from Internal Audits." Mr. Onsgard represents these documents continue to be proprietary confidential business information and should be accorded a confidential classification for an additional 18 months.

Staff notes Section 366.093(b), F.S., provides that internal auditing controls and reports of internal auditors may be granted a confidential classification.

- 2). Business plans and strategies of FPL

- 3). Customer-specific account information.

Witness Ken Getchell, FPL Budget and Regulatory Support Manager, identifies material concerning customer-specific account information within FPL's request. Specifically, Mr. Getchell identifies customer-specific account information within staff working papers entitled: "RTP Factors for July 2001", "Billing Invoices for July and September 2001", "Sample Testing", "Incentives", "CILC(Commercial/Industrial Load Control) Incentives", and "Invoices."

Mr. Getchell represents these documents continue to be proprietary confidential business information and should be accorded a confidential classification for an additional 18 months. Ms. Getchell further reports; "...FPL has a corporate policy not to disclose customer-specific information. This policy includes, but is not limited to; customer names, addresses, telephone numbers, account numbers, rates, billing determinates (kW and kWh usage), conservation savings in kW, kWh and bills. FPL treats such information as confidential and does not disclose it, except as required by law, to entities or persons other than the customer without the permission of that customer. Disclosure of this information may impair FPL's competitive business interests..."

Section 366.093(3)(e), F.S., provides sensitive competitive business information the release of which would harm the provider of the information may be granted a confidential classification.

March 27, 2006  
 Florida Power & Light Request for Extension

**Information Held as Confidential**

FPL reports the confidential information within the filing meets the definition of confidential information set out in Section 366.093, F.S. and the utility witnesses, Mr. Onsgard and Mr. Getchell, indicate that the information identified by them is held as confidential by FPL and this information is not released to the public.

**Duration of the Confidential Classification Period**

FPL requests that this material be returned to the utility once the information is no longer needed for the Commission to conduct its business.

According to the provisions of Section 366.093(4), F.S., absent good cause shown, confidential classification is limited to 18 months. Without cause shown for a longer period, we recommend that the period of confidential classification be set as 18 months. As deemed necessary, the utility may request an extension of the confidential classification before the period tolls.

**Staff Recommendation**

Based upon reading the filing, and for the reasons presented above, we recommend the utility's request for extension of classification period be granted and that the identified material be granted a second 18 month extension of confidential classification.

A detailed recommendation follows:
