TARIFF FORMAT SHEETS

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc, the FPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).

D. Check Sheets - When a tariff filing is made with the FPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

SECTION 2 - RULES AND REGULATIONS continued

2.6 **Deposits**

The Company does not require a deposit from the customer.

2.7 **Advance Payments**

For customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will be applied against the next month's charges and if necessary a new advance payment will be collected for the next month.

2.8 **Taxes**

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.9 **Billing of Calls**

All charges due by the subscriber are payable at any agency duly authorized to receive such payments. Any objection to billed charges should be promptly reported to the Company. Adjustments to customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

3.1.1 When Billing Charges Begin and End For Phone Calls

The customer's long distance usage charge is based on the actual usage of the Company's network. Usage begins when the called party answers (i.e. when 2 way communication, often referred to as "conversation time" is possible.). When the called party answers is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

3.1.2 Billing Increments

The billing increments for each service is set forth in the individual product rate section.

3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

3.1.4 Uncompleted Calls

There shall be no charges for uncompleted calls.

SECTION 3 - DESCRIPTION OF SERVICE continued

3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers that are produced by Bell Communications Research in the NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.

FORMULA:

The square

root of:
$$\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$

3.3 Minimum Call Completion Rate

A customer can expect a call completion rate (number of calls completed / number of calls attempted) of not less than 90% during peak use periods for all FG D services ("1+" dialing).

SECTION 3 - DESCRIPTION OF SERVICE continued

3.4 **Service Offerings**

3.4.1 **1+ Long Distance Service**

Long Distance service permits residential and business direct dialed outbound calling at a single per minute rate. Service is provided from presubscribed, dedicated or shared use access lines. Calls are billed in whole minute increments.

The Company offers switched Long Distance Service to residential and business customers.

3.4.2 **Inbound 800/888 Long Distance Service**

Inbound 800/888 Long Distance Service permits residential and business inbound 800/888 calling at a single per minute rate. Service is provided from presubscribed, dedicated or shared use access lines. Calls are billed in whole minute increments.

The Company offers Inbound 800/888 Long Distance Service to residential and business customers.

3.4.3 **Travel Card Service**

Travel Card Service is a calling card service offered to residential and business customers who subscribe to the Company's Long Distance Service calling plan. Customers using the Carrier's calling card service access the service by dialing a 1-800 number followed by an account identification number and the number being called. This service permits subscribers utilizing the Carrier's calling card to make calls at a single per minute rate. Calls are billed in whole minute increments.

SECTION 3 - DESCRIPTION OF SERVICE continued

3.4.4 **Operator Services**

General Operator Services Provisions

- 3.4.4.1 Carrier furnishes operator assistance services to pay telephone providers by reselling local exchange and interexchange telecommunications services.
- 3.4.4.2 Operator assistance services are provided primarily to subscribers that serve transient end user markets. Terminal equipment accessing the services will route operator assisted calls over designated carrier facilities to regional digital call processing switches served by the underlying carrier's operator centers.
- 3.4.4.3 Calls requiring operator intervention such as Collect, Third Party Billed, Person-to-Person and certain Calling/Credit Card calls will be routed to an operator position by the processor. Operators and automated interfaces will answer each call by identifying the services as that of the Company's.
- 3.4.4.4 The operator will collect billing information and perform validation and call acceptance functions. If the call is authorized, the operator will release the call for completion and call timing will then be performed in the processing switch. Automated interface Calling Card and Credit Card calls are validated through an automated interface and if authorized will be completed without operator intervention.
- 3.4.4.5 Switch processors forward call message detail via magnetic tape for computer processing and application of tariffed rate. After rating has been performed billing tapes are created and forwarded to local exchange carriers and commercial credit card companies. These companies acknowledge receipt and, after processing, confirm revenues due and payable to the Company.
- 3.4.4.6 Operator assistance service charges are fixed per call fees tariffed by the Company for operator service rendered in connection with completed calls. The operator assistance service charges applied will be in accordance with the billing method selected by the End User. The applicable operator assistance service charge is added to the measured usage charge to establish the total charge a completed operator assisted call.
