In re: Fuel and purchased power cost recovery clause with generating performance incentive factor. | DOCKET NO. 060001-EI
ORDER NO. PSC-06-0314-CFO-EI
ISSUED: April 20, 2006

ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 01882-06)

On March 3, 2006, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Progress Energy Florida, Inc. ("PEF") filed a request for confidential classification of portions of Staff's First Request for Production of Documents (No. 1) (Bates Stamp No. PEF-FUEL-000001-0000014 and Bates Stamp No. PEF-FUEL 0000020-0000021) (Document No. 01882-06).

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" (subsection d); and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information" (subsection e).

PEF contends that information contained in Staff's First Request for Production of Documents (No. 1) (Bates Stamp No. PEF-FUEL-000001-0000014 and Bates Stamp No. PEF-FUEL 0000020-0000021) falls within these categories and thus constitutes proprietary confidential business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. PEF states that this information is intended to be and is treated by PEF as private and has not been publicly disclosed.

PEF contends that this information contains pricing and quantities of fuels pursuant to confidential contracts negotiated by and between PEF and certain energy providers. According to PEF, the information concerns other contractual data, the disclosure of which would impair the efforts of PEF to contract for goods and services on favorable terms. PEF further asserts that disclosure of this information would impair its competitive business.

Upon review, it appears that the above-referenced information contained in Staff's First Request for Production of Documents (No. 1) (Bates Stamp No. PEF-FUEL-000001-0000014 and Bates Stamp No. PEF-FUEL 0000020-0000021) satisfies the criteria set forth in Section

366.093(3), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, this information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless PEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.
