COMMISSION CLERK

RE: Docket No. 060158-TL
Order No. PSC-06-0258-PAA-TL

Dear Ms. Bayó :

In response to the above referenced Docket and Order issued on March 27, 2006, Frontier Communications of the South ("Frontier") has reviewed its security measures for customer proprietary network information and submits the attached summary report of its findings.

Pursuant to the Commission's rules, 25-22.006 Confidential Information, Frontier requests that the attached summary report be designated as confidential information. The report contains information that Frontier does not in the normal course of business reveal to the public. Frontier is also particularly concerned that any public disclosure of the security safeguards it has implemented to protect customer information may compromise these safeguards, contrary to the very objective of this inquiry.
