RE: Digital Community Network Application for Authority to Provide Shared Tenant Service within the State of Florida – Docket 060320

Dear Mr. Moses:

In regards to the referenced application, I would like my name and company named removed from section #19: Managerial and Technical Resumes. Myself, nor my company provides services to Digital Community Networks, Inc. in this capacity and I do not wish to have my name or my company name affiliated with Digital Community Networks, Inc.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael D. Boger, Sr.", written in a cursive style.

Michael D. Boger, Sr.
President/C.E.O.

COMMENTS

Ms. Curry,
The updated Technical Resume and letter are attached. Please call me if you have any questions.

Thank you,
Lorraine Miscavage

19 (A & B): Managerial and Technical Resumes

- Robert Miscavage, President of Digital Community Networks, Inc.

Robert Miscavage has 27 years of experience in Cable TV management. He has supervised the construction and installation of cable systems for almost 200,000 condominium and apartment units throughout Florida, Georgia and Tennessee. Mr. Miscavage has designed and built numerous cable head ends and served as Director of Operations for a public Cable TV company.

Since 1989, Mr. Miscavage has built, owned and operated successful cable systems for his own account. He also secured government funding and built the first full frequency 24 hour/day wireless cable system in the United States. Mr. Miscavage also negotiated the first U.S./Canadian license to carry Canadian television channels in the U.S. His experience also includes partnering in a company that manufactured antennas and broadcast equipment for licensed MMDS licensed frequencies in the U.S. Mr. Miscavage holds a Masters Degree from the University of Maryland.

- Dana Clark, Chief Engineer

Dana Clark has 25 years of extensive cable plant management, technical management of repair and upgrades and design and construction management. Mr. Clark is competent in all types of broadband delivery systems, including c-band, dbx, off-air broadcast, telephone, and high speed internet.

Since 1988, he has owned a plant management service company serving cable systems throughout Florida. Mr. Clark's chief technicians have over 40 years combined experience in the catv/telecommunications field. Mr. Clark holds a Bachelors degree from Plymouth State University.

- Mark Lapidus, Chief Plant Technician

Mark Lapidus has 24 years experience as chief plant technician, construction supervisor and technical operations supervisor for a large cable MSO. He has supervised several telecommunication system construction projects for cable television and high-speed data and is responsible for the daily operations and maintenance of these systems.

- Cornel Cheron, Technical Manager

Cornel Cheron's background includes experience as a technical supervisor for a large cable MSO. His expertise includes fiber optic operation, telecom system maintenance including return path and high-speed data and power supply maintenance. Mr. Cheron was responsible for 2,000 miles of cable plant and supervised 18 cable plant maintenance technicians.

Mr. Cheron also supervised telecommunication system construction for cable television and high-speed data and is responsible for the daily operations and maintenance of this system.

- Jason Cohen, IT Project Manager

Jason Cohen has been in the IT management field for over 8 years. He holds a variety of certifications in the field including: MCT, CTT, MCSE NT, MCSE 2K, MCSA, Security +, AI, Net+, I-Net+ and CIW A.

Mr. Cohen expertise includes infrastructure design, acquisition and management of installation and configuration of Cisco Systems routers, switches, bridges, VPN's and firewalls. He also specializes in tier 3 technical support for internet clientele. Mr. Cohen attended the University of Maryland at College Park.

- Lorraine Miscavage, Vice President of Digital Community Networks, Inc.

Lorraine Miscavage's technical background includes television/radio production and audio engineering. She has worked in numerous live productions for major production companies and television network productions for advertising and news divisions.

Ms. Miscavage transitioned from the technical field to the business and creative fields to start as the talent and producer for her own radio show. She then shifted into television news to eventually serve as Associate Director of News for an NBC affiliate. Ms. Miscavage also conceptualized and created her own television news segment as the talent, producer and director showcasing non-profit agencies. She holds a Masters degree in Business Administration from Tulane University.

- Bruce Lindell, Senior Sales Manager

Mr. Lindell has 27 years experience in the telecommunication industry. His technical supervisory experience includes the installation and maintenance of trunk lines and total rebuilds of new systems. Mr. Lindell then transitioned to the Territorial Sales Manager for a public cable TV company. He was the leading Territorial Sales Manager for the Eastern Territory for eight years in a row.

Mr. Lindell later served as Sales Manager for start-up telcom companies offering new product launches, including wireless cable technology and an Alternate Local Accessible Carrier telephone company. Mr. Lindell attended New York University.

- Christine Diaz, Customer Service Manager

Ms. Diaz has 18 years of experience in bilingual customer service. She has specialized in customer service management for the past 9 years, recruiting and training new employees for future management positions and working closely with sales departments, often exceeding sales quota expectations.

Ms. Diaz has also worked in loss prevention, payroll and overseeing annual budgets. She currently oversees all corporate call center and satellite office customer service representatives, and updates the company's executives on sales progress and customer issues.
