Aviation Department, first requested that the Board of County Commissioners authorize execution of an agreement for the purchase or lease of telecommunications equipment. BellSouth participated in this solicitation process. See County's Preliminary Exhibit List No. 1, Resolution No. R-361-82, dated March 16, 1982, with attachments.

Objection No. 5:

BellSouth objects to the lack of an identified time period in the [County's] Requests thereby making the Requests overly broad and constituting an undue burden on BellSouth.

Response to Objection No. 5:

The County's requests are not overly broad and are related to the matters involved in this action. The specific timeframe for the responses requested is from 1982 to the present. This timeframe is appropriate because it was in 1982 that the County, through the Dade County Aviation Department, first requested that the Board of County Commissioners authorize execution of an agreement for the purchase or lease of telecommunications equipment. BellSouth participated in this solicitation process. See County's Preliminary Exhibit List No. 1, Resolution No. R-361-82, dated March 16, 1982, with attachments.

County's Specific Responses to BellSouth's
Specific Objections to the Request

County's Request No. 1:

All correspondence between BellSouth, BellSouth Corporation, or any division, department, or subsidiary of BellSouth Corporation, and the Florida Public Service Commission ("PSC") pertaining to the provision of telecommunications services by Miami-Dade County or the Miami-Dade Aviation Department ("MDAD") at Miami International Airport ("MIA").

Specific Objection to Request No. 1:

See General Objections supra. To the extent this request is construed to require the production of correspondence by and between various BellSouth entities, and not between BellSouth entities and the PSC, BellSouth objects on the basis of relevance and undue burden.

Response to Specific Objection No 1:

Intra-communications between the various BellSouth entities are related to the County's telecommunications operations and are relevant to the present action.
