Comments

21. Have you experienced any significant barriers in entering Florida's local exchange markets? Please list and describe any major obstacles or barriers encountered that you believe may be impeding the growth of local competition in the state, along with any suggestions as to how to remove such obstacles. Any additional general comments or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida are welcome.

XO's experiences with anticompetitive conduct by ILECs in FL have been the subject of at least one complaint docket, and XO has, in the past, been forced to resort to arbitration in its negotiation of interconnection agreements. Although some of these issues have been resolved, XO relies on those past filings, as well as filings in currently active dockets, including but not limited to the ongoing XO Communications Services, Inc.'s Complaint And Request For Relief Regarding Verizon's Determination Of Non-Impaired Wire Centers Under The TRRO proceeding, for examples of both barriers encountered and relief sought by XO from the PSC to eliminate those barriers.

In addition, because the FL PSC does not have formal Carrier-to-Carrier Migration rules, XO frequently experiences difficulties in obtaining Customer Service Records ("CSR"s) and in porting services from other FL CLECs. XO believes that the adoption of Carrier-to-Carrier Migration rules, such as those in place in NY and TX would improve the CLECs ability to compete and provide services in FL.
