STAFF'S FIRST DATA REQUEST

Natalie Smith
Florida Power and Light
700 Universe Blvd
Juno Beach, FL 33408

Re: Docket Number 060488, Complaint of Streamline Hotel a/k/a Daytona Hostelry
against Florida Power and Light

Dear Ms. Smith:

By this letter, the Commission staff requests that Florida Power and Light, (FPL) provide responses to the following set of data requests:

1. During the informal meeting, the engineer for FPL stated that there was a 1935 document provided to customers at the time, including Streamline Hotel. The document described who had maintenance responsibilities for the wiring and or meter housing and current transformers. Please provide the PSC with a copy of that document.

2. Did FPL own the current transformers that were housed in the meter casing at the Streamline Hotel?

3. When responding to this question, please respond for both commercial and residential properties. Who owns the meter base, or casing or the housing in which the meter is kept? Who owns the wiring, if any, found inside of the housing, or casing or meter base?

4. In responding to question 3 above, provide any evidence, including tariff references, building code references or actual practice, to support your response.

5. If the response to question 3 above is that the customer/property owner owns any wiring inside the meter base or casing or housing for the meter, explain the procedure by which the property owner is given access to wiring inside the meter base in order to do maintenance and repairs.

6. In responding to question 5 above, provide any evidence, including tariff references, building code references or actual practice, to support your response.
