Re: Fuel and purchased power cost recovery clause with generating performance  
incentive factor; Docket No. 060001-EI

Dear Ms. Bayó:

Please find enclosed for filing on behalf of Progress Energy Florida, Inc., the  
petition for approval of fuel and purchase power cost recovery factors for the period of  
January 2007 to December 2007 which was inadvertently omitted from our initial filing  
on September 1, 2006.

Thank you for your assistance in this matter.

Sincerely,

*John T. Burnett* LMS

BEFORE THE PUBLIC SERVICE COMMISSION

In re: Fuel and purchased power cost recovery  
clause with generating performance incentive  
factor.

Docket No. 060001-EI

Dated: September 1, 2006

**PROGRESS ENERGY FLORIDA'S PETITION FOR APPROVAL OF  
FUEL AND PURCHASE POWER COST RECOVERY FACTORS  
FOR THE PERIOD JANUARY 2007 to DECEMBER 2007**

Progress Energy Florida, Inc. ("PEF" or "the Company"), hereby petitions for approval of its fuel and capacity cost recovery true-up and proposed fuel and capacity cost recovery factors for the period January 2007 to December 2007. In support of this Petition, PEF states:

**Fuel Cost Recovery Factors**

1. PEF's proposed fuel cost recovery factors are presented in the pre-filed testimony and exhibits of Javier Portuondo. Schedule E1, in Section B of Mr. Portuondo's Exhibit No. \_\_\_ (JP-1P) shows the calculation of the Company's basic fuel cost factor of 5.451 ¢/kWh (before metering voltage adjustments). The basic factor consists of a fuel cost for the projection period of 5.5235 ¢/kWh (adjusted for jurisdictional losses), a GPIF penalty of 0.00379 ¢/kWh, and an estimated prior period over-recovery true-up of 0.07302 ¢/kWh. Utilizing this basic factor, Schedule E1-D shows the calculation and supporting data for the Company's final levelized fuel cost factors for service taken at secondary, primary, and transmission metering voltage levels.

**Capacity Cost Recovery Factors**

2. The calculation of PEF's proposed capacity cost recovery (CCR) factors is shown in Part C of Mr. Portuondo's Exhibit No. \_\_\_ (JP-1P). The proposed CCR factors allocate

DOCUMENT NUMBER-DATE

FPSC-COMMISSION CLERK

capacity costs to rate classes in the same manner that they would be allocated if they were recovered in base rates. As shown on page 5 of Part C, the average retail capacity CCR factor is .959 ¢/kWh.

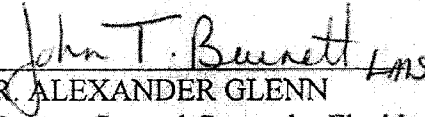

**Other Issues**

3. PEF has calculated that it is subject to a GPIF penalty of \$1,547,048 for the performance experienced during the period January 1, 2005 through December 31, 2005. The Company is also proposing GPIF targets and ranges for the period January 1, 2007 through December 31, 2007 with such proposed targets and ranges being detailed in the testimony and exhibits of PEF witness Robert M. Oliver.

WHEREFORE, Progress Energy Florida, Inc., respectfully requests that the Commission approve the Company's fuel and capacity cost recovery true-ups and proposed fuel and capacity cost recovery factors for the period January 2007 through December 2007 as set forth in the testimony and supporting exhibits of Javier Portuondo filed on September 1, 2006.

RESPECTFULLY SUBMITTED this 1<sup>st</sup> day of September, 2006.
