M:\1 ALTAMONTE\UTILITIES INC\LABRADOR UTILITIES\(.128) LABRADOR 2005 RATE CASE\PSC Clerk 13 (Audit Response).ltr.wpd

 Audit Finding No. 1
 Corrections to Prior Order Adjustments

 The Utility agrees with audit find number 1 in that the utility's average water and wastewater rate base balances are overstated by \$23, 979 and understated by \$22,252, respectively as of December 31, 2005 as a result of only posting some of the Commission
 ordered adjustments. The breakdown is as follows:

<u>A/C #</u>	A/C Description	<u>Debit</u>	<u>Credit</u>
1082000	Wat & W/Wat Acc/Dep Transportation	\$ 3,320	
1083021	Water Acc/Dep - Structure and Improv.		\$ 23,348
1083025	Water Acc/Dep - Pumping Equip.		\$ 56
1083043	Water Acc/Dep - Tran. And Distr. Mains	\$ 5,818	
1083094	Water Acc/Dep - Tools & Shop		\$ 2,454
1084003	W/Water Acc/Dep - Structure and Improv.	\$ 1,852	
1084005	W/Water Acc/Dep - Sewer Treatment Plant	\$ 12,858	
2151000	Retained Earnings	\$ 1,444	
3043021	Water Structure and Improv	\$ 2,703	
3315043	Water Tran. And Distr. Mains		\$ 5,567
3547003	W/Water Structure and Improv		\$ 18,591
3804005	W/Water Sewer Treatment Plant	\$ 21,455	
4032021	Water Dep. Exp Structure and Improv	\$ 85	
4032043	Water Dep. Exp Tran. And Distr. Mains		\$ 130
4033003	Water Dep. Exp Structure and Improv		\$ 582
4033005	Water Dep. Exp Sewer Treatment Plant	\$ 1,193	
		\$ 50,728	\$ 50,728

Audit Finding No. 4

Adjustment to Transportation Equipment

The utility agrees with audit finding number 4 in that it's account balances for transportation equipment and related accumulated reserve did reflect a duplicate entry and that the December 2005 journal entries should be reversed to properly state the correct balances for these accounts.

The break	lown is as follows:			
<u>A/C #</u>	A/C Description	<u>Debit</u>	9	<u>Credit</u>
1082000	Acc/Dep - Transportation		\$	9,528
2151000	Retained Earning		\$	9,528
3197000	Transportation Equipment	\$ 19,053		
		\$ 19,053	\$	19,056

It should be noted that in the Cypress Lakes Audit Report the Staff identified in Audit Finding No. 6 that vehicle number 0427 was not being used in Cypress Lakes but was in fact being used in Labrador.

The Utility has confirmed that vehicle 0427 in the amount of \$17,763 mentioned in the audit report is indeed not being used in Cypress Lakes. This vehicle is being used in Labrador by a full time operator, Shantavious Rainey. Therefore, while this vehicle should come out of Cypress Lakes, it should be included in rate base for Labrador. Additionally, while the actual cost of the vehicle is \$17,763 as stated in the audit report, Staff neglected to remove the cost of the side box that is linked to this vehicle. The total cost to remove for vehicle 0427 is \$18,590, as shown on the depreciation schedule provided in the Cypress Lakes Audit Response.

As indicated in the referenced Cypress Lakes response, the Utility agrees with Staff's

adjustment to transportation expense in order to remove any transportation expense associated with vehicle 0427 in Cypress Lakes. However, the Utility notes that since this vehicle is being used in Labrador by a full time operator, these costs should be a known

and measurable pro forma adjustment to the Labrador books and MFR. The Utility would propose the following entry to its books for Labrador

The break	lown is as follows:		
<u>A/C #</u>	A/C Description	<u>Debit</u>	Credit
1083050	Acc/Dep - Transportation		\$ 6,198
3917000	Transportation Equipment	\$ 18,590	
6501020	Transportation Expense - Gas	\$ 3,268	
6501030	Transportation Expense - Repairs	\$ 2,080	

As indicated in the response to Cypress Lakes #6, Depreciation expense was calculated using the total cost of the transportation equipment multiplied by 16.67%. Accumulated depreciation was calculated at the same rate with 2 years depreciation.

The average amounts proposed by the Utility for ratemaking purposes are as follows:

<u>A/C #</u> 1083050 A/D - Transporta 3917000 Transportation E		<u>2004</u> (6,416) 35,178	2005 (5,317) #REF!	<u>Average</u> (5,866) #REF!
		Water	Sewer	Total
Transportation Equipment ac	ljustment per Audit	8,438	8,178	16,616
Transportation Equipment ac	ljustment per			
Utility audit exceptions		17,878	17,328	35,206
Difference		9,440	9,150	18,590
A/D - Transportation adjustr	nent per Audit	(3,038)	(2,944)	(5,982)
• •	ent per Utility audit exceptions	(4,612)	(5,995)	(10,606)
Difference	· · ·	(1,574)	(3,051)	(4,624)

Finally, cash working capital should increase by 1/8 of the amount in transportation expenses, or by \$669 since it is being removed from the working capital allowance associated with Cypress Lakes' cash working capital balance.

Audit Finding No. 5

Adjustment to Remove Contribution

The Utility agrees with audit finding number 5 in that the utility recorded \$342 of CIAC and that the Utility was not authorized to collect service availability charges on a going forward basis as stated in Order PSC-03-0638-PAA-WS, June 2005. The utility agrees that the amount collected should be refunded to the customer.

The breakdown is as follows:

<u>A/C #</u>	A/C Description	D	ebit	<u>C1</u>	redit	
1411000	Acct. Receivable (Customer Refund			\$	342	
2711010	CIAC - Water	\$	342			

Audit Finding No. 6

Adjustment to Allocated Rate Base

The utility agrees with Audit Finding No. 6 in that the water and wastewater average rate base balances are overstated and understated by \$9,766 each as of December 31, 2005.

The utility also agree with the finding that depreciation expense balances are overstated and understated by \$1,221 each for the 12-monthy period ending December 31, 2005 because the Utility did not allocate rate base or depreciation expense balances to its wastewater operations.

Audit Finding No. 7

Adjustment to Allocated WSC Rate Base

The Utility agrees with audit finding number 7 in that the average wastewater utility plant in service balance should increase to \$10,573 per the audit report in Docket No. 060253-WS, and that the balance should be allocated to water and wastewater operations for \$5,369 and \$5,204, respectively.

The Utility would also like to note that beginning June 30, 2006, it books WSC rate base to each affiliate company, in the respective rate base accounts.

Audit Finding No. 8

Adjustment to Working Capital

The Utility agrees with audit finding number 8 in that cash working capital should be included in rate base. However, the utility did include it's working capital balance in Schedule A-1 and A-2 (Revised) of the MFR. The Utility believes no adjustment per this audit finding is necessary.

Audit Finding No. 9

Adjustment to Land Lease Expense

The utility agrees with Audit Finding No. 9 in that the water and wastewater O&M expenses are overstated by \$8,325 and \$8,069 for the 12 month period ending December 31, 2005 based on the cap set in Order No. PSC-04-1281-PAA-WS. This adjustment should be reflected in water account 675 and wastewater account 775.

Audit Finding No. 10

Adjustment to Prior Rate Case Expense

The Utility disagrees with the adjustment to remove prior rate case expense. Although the yearly approved amortization was only \$17,247, the Utility would most certainly incur costs shortly before hearing, during the hearing, and post hearing. While these costs could not have been known and measurable at the time rate case expense from the prior case was approved, they are certainly known and measurable now, and are indisputably costs incurred in association with the prior rate case. Therefore, the additional rate case expense should be included as a part of amortization of rate case expense in this proceeding. The Utility proposes to include the expense of \$1,761 and \$1,960 for water and wastewater respectively in this proceeding, for a combined total of \$3,721.

The audit report indicates that the rate case expense is over stated by \$3,761. Our review indicates that the amount of overstatement is \$3,721. The calculation of this amount is as follows:

	Per Audit		
Rate Case Expense	Item #10	Per Response	Difference
Per Audit	17,247	17,247	0
Per Utility	21,008	<u>20,968</u>	<u>(40)</u>
Adjustment	(3,761)	(3,721)	40

The \$20,968 amount is supported by the Company's response to LB-106-08 and the Regulatory Commission Expenses amounts reported on the Reconciliation of Accounts as of 12/31/05.

Effect on Filing Per the Company's Response is as follows:

	Per Utility		Waste-
Rate Case Expense	Response	Water	water
Per Audit	17,247	8,759	8,488 *
Per Utility	<u>20,968</u>	10,520	10,448
Adjustment	(3,721)	(1,761)	(1,960)
*Allocated based on customers		50.78%	49.22%

Audit Finding No. 11

Adjustment to Allocated WSC Expense

The Utility agrees with audit finding number 11 in that Labrador's expenses from WSC are overstated by \$1,115 and that working capital is overstated by \$138. The breakdown is as follows:

	<u>A/C #</u>	A/C Description	Debit	<u>Credit</u>
	2151000 R/E		878	
	4032098 Depreciation	on Expense - Computers		10
	4191010 Interest Inc	some *	1	
	4272090 Interest Ex	pense *	236	
	6329002 Audit Fees	-		405
	6369009 Amortizati	on Expense - Computer		66
	6599090 Insurance	Other		384
	6759005 Postage Fe	es		249
	Staff Roun	ding		1
*	* Not included in net o	operating income	1,115	1,115

Audit Finding No. 12

Adjustment to Revenues and Taxes Other Than Income

The utility agrees with Audit Finding Number 12 and accepts the Staff's calculation that the utility's water and wastewater revenue balances are understated by \$3,726 and \$645, respectively, for the period ending December 31, 2005.

In addition, the Utility also accepts Staff's finding that the Utility's RAF balances are understated by \$2,014 and overstated by \$764, respectively, for the period ending December 31, 2005.

Audit Finding No. 13

Information on Transportation Expense

The Utility disagrees with Staff's comments in audit finding number 13. Staff is correct in saying that the Utility provided the total invoice, but is incorrect in saying the allocations are all internally calculated. The Utility has enclosed the GE Capital Fleet invoice for reference. While the first two sheets of the invoice are internally created, they are only a reference to the actual GE Capital Fleet invoice. GE's actual invoice begins on the third page and continues through the rest of the invoice. GE tracks all fuel, maintenance and card fees separately for each company, and even breaks it down by each vehicle within each company. The Utility does not request the breakdown by vehicle to come in the mail with the actual invoice because it is too voluminous. Rather, when the Utility receives the invoice in the mail, it is able to view backup for the invoice online to ensure that the invoice is correct. The Utility has enclosed the backup for the invoice provided in this response so that Staff may view the same detail that the Utility has access to.

Audit Finding No. 14

Information on Capital Structure Balances

The Utility agrees with the capital structure presented in audit finding number 14. This was the capital structure agreed upon in Docket No. 060253-WS.

Audit Finding No. 15

Information on Deferred Taxes

The Utility agrees with item (1) of audit finding number 15, and would propose the same entry as Staff, which is as follows:

<u>A/C #</u>	A/C Description	Debit	Credit
2151000 R/E		916	
1902031 State AI	DIT - Depreciation		916

The Utility agrees with item (2) of audit finding number 15, and would propose the same entry as Staff, which is as follows:

<u>A/C #</u>	A/C Description	Debit	Credit
2151000 R/E 1901024 Federal A 1902024 State AD	5	2,127	900 1,227

While the final audit requests surrounding ADIT were not complete for the audit reports, the Utility has now completed these per audit Staff's request and has provided them to Commission audit Staff for their use or for the use of testifying Staff. This satisfies item (3) of audit finding number 15.

The Utility recognizes Staff comments in item (4) of audit finding number 15.

The Utility recognizes Staff comments in item (5) of audit finding number 15.

The Utility recognizes Staff comments in item (6) of audit finding number 15.
