infrastructure; or (4) BellSouth has plans to use the fiber within a two-year planning period. BellSouth is not required to place the fiber for Dark Fiber Loop if none is available.

2.17.2.2 NuVox may test the quality of the Dark Fiber to determine its usability and performance specifications.

2.17.2.3 NuVox may test Dark Fiber obtained from BellSouth using CLEC or CLEC designated personnel. BellSouth shall provide appropriate interfaces to allow access to Dark Fiber at NuVox's Serving Wire Center and at NuVox's customer's premises.

2.17.2.4 BellSouth shall use commercially reasonable efforts to provide to NuVox information regarding the location, availability and performance of Dark Fiber Loop within ten (10) business days after receiving a SI from NuVox. Within such time period, BellSouth shall send written confirmation of availability of the Dark Fiber ("Confirmation"). If the requested Dark Fiber Loop is available, BellSouth shall use commercially reasonable efforts to provision the Dark Fiber Loop to NuVox within twenty (20) business days after NuVox submits a valid, error free LSR. Provisioning includes identification of appropriate connection points (e.g., Light Guide Interconnection (LGX)) to enable NuVox to connect NuVox provided transmission media (e.g., optical fiber) or equipment to the Dark Fiber Loop.

2.17.2.5 BellSouth shall provide access to Dark Fiber Loop for test access and testing at the termination point (demarcation) within NuVox's Serving Wire Center. For maintenance troubles after acceptance of the Dark Fiber, NuVox should use the normal trouble reporting process and BellSouth will isolate and correct the problem. If requested dark fiber has any lightwave repeater equipment interspliced to it, BellSouth will remove such equipment at NuVox's request subject to time and materials charges.

2.17.2.6 If requested dark fiber has any lightwave repeater equipment interspliced to it, BellSouth will remove such equipment at NuVox's request subject to time and materials charges.

5. The Parties agree to replace the language currently in Section 10.8.1 of Attachment 3 with the following:

Each Party shall provide tandem switching and transport services for the other Party's Transit Traffic. Rates for Local Transit Traffic and ISP-Bound Transit Traffic shall be the applicable composite rate (i.e., Local Intermediary Charge) as set forth in Exhibit A to this Attachment. Rates for Switched Access Transit Traffic shall be the applicable charges as set forth in the applicable Party's Commission approved Interstate or Intrastate Switched Access tariffs as filed and effective with the FCC or Commission, or reasonable and non-discriminatory web-posted listing if the FCC or Commission does not require filing of a tariff. Billing associated with all Transit Traffic shall be pursuant to MECAB guidelines.

6. The Parties agree to replace the Switch-As-Is (“SAI”) rates currently in Exhibit A to Attachment 2 of the Agreement with those found in Exhibit D to the Amendment to be effective as of March 11, 2006.
7. The Parties agree to replace Exhibit C to Attachment 2 of the Agreement “Florida Initial List of Unimpaired Wire Centers” with Exhibit E to the Amendment.
8. All of the other provisions of the Agreement, dated March 11, 2006, shall remain in full force and effect.
9. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.
