Be advised we have not received any correspondence from Utilities Inc. with respect to our complaint.

According to your letter dated June 8, 2006 we should receive a response from the Utility addressing our concerns within 3 weeks of receiving our complaint. It has been over 3 weeks since our letter of concern to the Utility and we have not even received a phone call acknowledging the letter.

Be also advised according to your letter if we have not contacted you within 30 calendar days from the date of this letter you will presume we are in agreement with the Utilities response.

This is a formal request to involve the PSC in resolving the ongoing concerns that our residents are being effected by daily with strong odors emanating the plant and fire hydrants being flushed without any notice or warning from the Utility. Water quality concerns and ruined laundry are also effecting the residents.

WE have received over 30 affidavits to the effects of this deplorable condition and we must appeal to the PSC to apply the appropriate pressure to Utility Inc. to resolve this matter.

Be also advised that numerous attempts by the Dept. of Environmental Protection have been unanswered by the Utility.

Please contact me as soon as possible to acknowledge this second request for assistance.

Thank you

Brett L. Schroder

To Whom It May Concern:

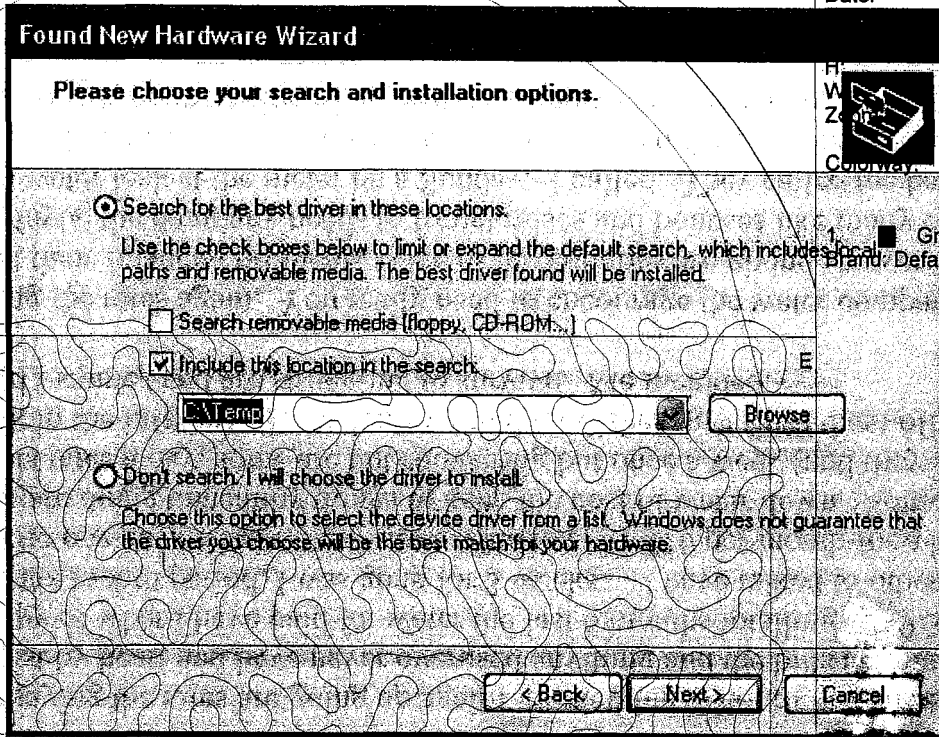

This letter is in regards to Docket No. 060262-WS

Have you lost your mind! I haven't been in this state 2 years yet and I'm so deep in debt from constant increases in everything.

Let's get to the water. When I bought my house (trailer), I was told water was \$15.00 a month. Before I moved in, it was increased, on a trial basis, after a year I got a letter stating the increase was permanent. At that time, after the first two bills, I pulled out all the flower beds. They were around the entire house and needed water. You now get to look at lighthouses-they don't need water. My inground sprinklers have been turned on since then. The grass will just have to make it on it's own.

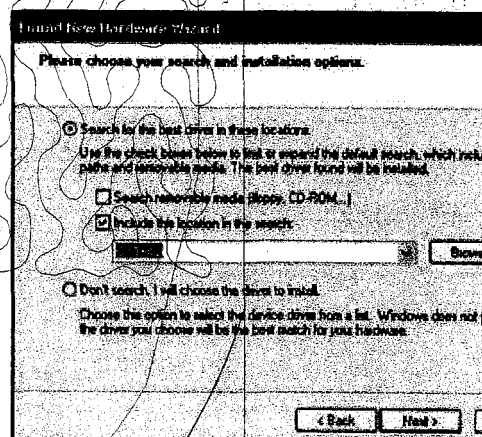

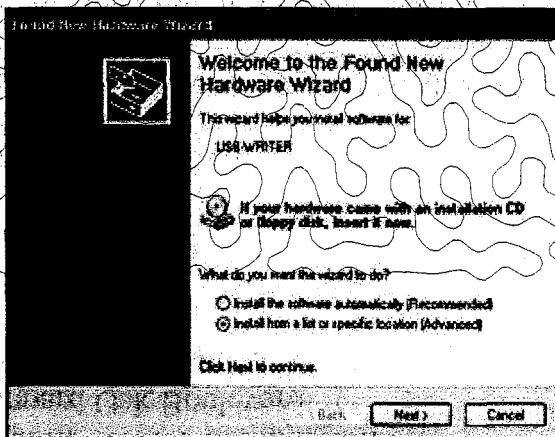

Now I get a letter saying the rates are going up again! Something is not right. I live alone and am a conservationist by heart and have never overused anything and the bills are outrageous. I have attached a copy of what I have paid for water the last 6 months totalling \$349.34. And I live alone! In this six month period, I was gone for 3 weeks. I have talked to other residents of other cities and no one pays what we pay now. Hudson pay \$10 per month for a house. People in this park are doing unhealthy things to keep the cost of water down. Some are only flushing their toilets once a day, some are not showering but once a week (and they are not washing at the sink in the interim). They don't wash their dishes, just rinse them off. These people are on fixed incomes and are struggling to survive. Me included.

Now you are raising the rates again. You really need to encourage the water company to find other ways to meet their financial problems. One of the counties are giving shower heads that conserve water. Maybe the company needs to forget raises and bonuses like many companies have to do. I had a water leak at the meter on a Sunday. I called. They called me back and said someone would be out that day. On Monday they showed up. So for 24 + hours the water just ran into the street. It was on their side of the meter. If they had someone fix it on Sunday,

Once the Hardware Wizard finishes, PE-DESIGN Version 5.61 will be ready to use.
[If you have NOT installed Windows Xp Service Pack 2, yet...]

When you connect your USB Reader/Writer Box to your PC, the Hardware Wizard will be launched automatically.
 To install the new device driver for the USB Reader/Writer Box, please specify the previously created temporary folder (ex. C:\Temp) where the downloaded file should be stored.

Once the Hardware Wizard finishes, PE-DESIGN Version 5.61 will be ready to use.

instead of Monday, that would have decreased their expense. They had someone on call and had to pay him anyway. How many incidents like that occur? Where is that type of expense listed when they come to you for increases. Companies are getting really good at creative accounting and can show you anything they think you might want to see to get and increase in rates.

As a commission, I thought your job was to keep control of rates and be an advocate for the consumers. Is that true? If it is, why when a company asks for \$4 , you approve \$7? I would think you would approve less not more!

You are scheluded to be in the park in Nov. That was done the last time and it was like we were talking to deaf ears. It's time to wake up and smell the coffee. This water company is getting enough from this park. NO increase should be approved. The snow birds are paying \$18.00 a month when they are not here and are not using water. Get that number, about 60% of the residents and total the money the water company is collecting for nothing. That amount should help with their finances.

As you can see, I have had enough. It's time you took your job seriously and became a consumer advocate. It's time these utility companies started operating like a person and lived within their means instead of a government, that lives above their means with the attitude we went over budget, we'll just raise the rates!

Sincerely,

Andrea Martlock

*In some cases, the above window would not appear and you would see the next window as your first step.

To The Public Service Commission

We the undersign would like to go on record as being very much opposed to any Rate Increase in our Water and Sewer Rates. Labrador Utilities Inc. has not given the Residents of Forest Lake Estates the service that we are paying for now. Any increase would be a hardship on many of the residents of Forest Lake Estates. We would ask the PSC to look at the files that DEP has on the Utilities.

LETTER, PROTEST THE WATER & WASTEWATER
RATES OF 7/18/06 WITH LABRADOR UTILITIES

Ronald C. Wolcott
Beth E. Wolcott
Carey Wolcott Rickerzon

We came home the first day of October and we had to wait three days for our water to be turned back on. We had called ahead and the lady said oh you have to sign and pay \$15.00. When we didn't get water we called the office here at Forest Lake and she said oh we can't help you you have to wait for the guy to come and she didn't tell me

②

how to get hold of him.
So he finally was supposed
to come early in the morning
on the third of October. We
got our water turned on Tues.
after noon.

Floyd C. Sewaffer

10/23/06

To whom it may concern,

We live at 6046 Utopia Dr. We live on the corner where the road to the sewer plant is right behind us.

Since we've lived here, we have been aggravated by the smell of the sewer plant, dirt that has been tracked out onto the street from their road, and especially not being able to drink the water because of the taste and film we can see on top of the water. We have to buy our drinking and cooking water.

I had a respiratory infection and my Doctor told me to sell my house and get away from the smell of the plant.

One day we were sitting in our screen room with company and a sewage truck came out from the plant with sewage in it and the water sewage was leaking out of the truck and down the road and out through the park. The smell was so bad that we had to go into the house. It was embarrassing with our company.

We had new flooring put into our dining room and livingroom, and when the carpeting was taken up, there was all this sand that had been tracked into our house that was on our carpet from their road. We try to keep the carpet as clean as

we can, but there is always that amount that is there. If we open our diningroom window, there is a film of dust from the road on my table.

There is not a day that we don't smell the sewer and it is always worse on the weekends. Sometimes we can smell it in our house and we have the windows closed.

We think we are paying too much now and we can't drink the water plus all the aggravation. We are very much against the increase in rates and would like to see what we are paying now lowered.

Respect fully

Zephyrhills FL 33540

To The Public Service Commission

We the undersign would like to go on record as being very much opposed to any Rate Increase in our Water and Sewer Rates. Labrador Utilities Inc. has not given the Residents of Forest Lake Estates the service that we are paying for now. Any increase would be a hardship on many of the residents of Forest Lake Estates. We would ask the PSC to look at the files that DEP has on the Utilities.

To The Public Service Commission

We the undersign would like to go on record as being very much opposed to any Rate Increase in our Water and Sewer Rates. Labrador Utilities Inc. has not given the Residents of Forest Lake Estates the service that we are paying for now. Any increase would be a hardship on many of the residents of Forest Lake Estates. We would ask the PSC to look at the files that EPA has on the Utilities.
