### Notes for Non-Basic Rate Increase Calculations

1. The current month units are as of August 2006.
2. The current month's revenue is the current month units multiplied by the current rate.
3. The expected month's revenue is the current month units multiplied by the proposed rate.
4. The current annual revenue is the current month's revenue multiplied by 12.
5. The expected annual revenue is the expected month's revenue multiplied by 12.
6. The total annual revenue amounts for each bucket are the actual revenues for the period of September 2005 through August 2006.
