RE: Docket No.: 060257-WS; Cypress Lakes Utilities, Inc.'s Application for Rate Increase
in Polk County, Florida
Our File No.: 30057.113

Dear Ms. Bayo:

Enclosed for filing in the above-referenced docket is the response of Cypress Lakes Utilities, Inc., to Staff's Fifth Data Request dated December 19, 2006:

Wastewater plant account balances were set pursuant to Order No. PSC-03-0647-PAA-SU, issued May 28, 2003, in Docket No. 020407-WS, In re: Application for rate increase in Polk County by Cypress Lakes, Inc. According to the utility's MFRs, the 13-month average balances for Accounts 354 and 380, before utility and staff adjustments, were \$178,994 and \$913,219, respectively. The relative size differences between these accounts were not materially different after adjustments.

CMP _____
COM _____ *In the MFRs for the current case, the balance in Account 380 for 2004 is \$957,183, and the balance for 2005 is (\$603,009). This is a significant reduction. Correspondingly, the balance of Account 354 shows an increase from 2004 to 2005 of \$1,038,913. (2004 balance of \$87,430 versus 2005 balance of \$1,126,343). It appears from a review of the utility's Annual Report that most of the balance in Account 380 was reclassified to Account 354.*
CTR _____
ECR _____
GCL _____
OPC _____
RCA _____
SCR _____
SGA _____

Therefore, Staff requests the following information to complete this application:

- RCA _____ 1. Provide a breakdown, by primary account, of all plant reclassifications in 2005 that were associated with the \$1,020,192 balance reduction to Account 380, and provide a detailed explanation for why each reclassification was needed.

SEC | RESPONSE: Account 380, Treatment and Disposal Equipment, should include the cost of

installed apparatus equipment and other facilities used for the treatment of wastewater, disposal of sewage wastes and the treatment of effluent for reuse. Possible items in this category include but are not limited to aeration chambers, chemical equipment, disinfection facilities, filters, oxidation ponds or lagoons, sedimentation equipment, septic tanks, equipment used primarily for sludge or other waste disposal and sedimentation basins. Account 354, Structures and Improvements, should include the costs associated with structures and improvements used in connection with wastewater collection, pumping, treatment and disposal, reclaimed water treatment and distribution and general plant operations. Possible items in this category include but are not limited to intake and discharge tunnels, water supply piping, hydrants, and wells, water meters and supply for a building of for general company purposes, temporary facilities used during construction (net cost), storm doors and windows, roadways, roofs, sidewalks, lighting fixtures and outside lighting systems, fences and fence curbs, drainage systems, boilers, furnaces, piping, wiring, fixtures, and machinery for heating, lighting, signaling, ventilating, and air conditioning systems, and plans and specifications from architects. The "WWTP BLDS RECLASS" entry was to correct the misallocation of the assets included in these accounts. The entry was based on a good faith estimate of Mid-County's Vice President of Operations, Patrick Flynn, based the above definitions of the accounts. For further explanation please see attached worksheets and calculations.

Should you have any questions regarding this filing, please do not hesitate to give me a call.

Very truly yours,

MARTIN S. FRIEDMAN

Explanation for the Plant Account Portion of Reclassification Entries

Part I: Reclassification of Asset Accounts

The ending balance of plant account 3804005, before adjustments in December of 2005 was \$5,695,110.98, there were additions of \$2,659.25 for a total of \$5,697,770.23, before the reclassification entry of \$-4,795,876.85, after the entry the ending balance was \$901,893.38.

The reclassification entry reallocated \$4,795,876.85 from account 3804005 to 3547003. Please see entry below:

	DR	CR	Corresponding A/D Account	Corresponding Depr. Account	Exp.
067*0672	3804005 WWTP BLDS RECLASS	0	4795876.85	1084005	4033005
067*0672	3547003 WWTP BLDS RECLASS	4795876.85	0	1084003	4033003

The ending balance of plant account 3547003, before adjustments in December of 2005 was \$189,736.25, there was the addition of the reclassification entry of \$4,795,876.85, after the entry the ending balance was \$4,985,613.10.

The total of the two plant accounts at the end of the year after all adjustments equaled \$5,887,536.48 (\$901,893.38+\$4,985,643.10).

Part II: Recalculation of depreciation expense and correcting entry to A/D

Depreciation expense for the first six months of the year is based on the ending balances at 12/31/04, the depreciation expense for the second half of the year was based on the ending balances as of 6/30/05.

The balance in account 3804005 at 6/30/05 was \$5,675,890.43 but there was an incorrect debit to the account of \$199.50 for captile which was reversed out in December of 2005, which would make the correct balance in the account \$5,675,690.93 at 6/30/05, which is what should be used to calculate monthly depreciation expense. Account 3547003, had a correct balance of \$189,736.25.

The total of the two corrected plant accounts at 6/30/05 equaled \$5,865,427.18 (\$189,736.25+\$5,675,690.93).

Account 4033005 had a depreciation expense for 2005 of \$161,815.86 at a rate of 2.86% (\$81,162.36+\$80,653.50)

Account 4033003 had depreciation expense for 2005 of \$5938.80 at a rate of 3.13% (\$2,969.40+\$2,969.40)

The total depreciation expense for the two accounts for the year, before any adjustments was \$167,754.66.

If the reclassification entry had been made prior to 6/30/05, the balance for account 3804005 would have been \$879,814.08 (\$5,675,690.93-\$4,798,876.85), and account 3547003 would have \$4,985,613.10 (\$189,736.25+\$4,798,876.85).

Account 3804005 should have had a depreciation rate of 5.56% for 2005, so the depreciation expense for 2005 should have been (879814.08*.0556)=\$48,878.56.

Account 3547003 used the correct depreciation rate but should have been multiplied by the balance after the reclassification which would result in a depreciation expense of \$156,049.69 (\$4,985,613.10*.0313).

The total of the two combined depreciation expense accounts for 2005 should have been \$204,928.25 (\$48,878.56+\$156,049.69), into A/D but the balance was only \$167,754.66, so an entry had to be made to correct depreciation expense in the amount of \$37,173.59 (\$204,928.25-467,754.66).

067*0647*4033005	FLA DEPR REBAL	37173.59	0
067*0647*1084005	FLA DEPR REBAL	0	37173.59

This entry increased accumulated depreciation in account 1084005 by \$37,173.59, and decreased depreciation expense account 4033005 by the same amount.

Part III: Recalculating Accumulated Depreciation

The accumulated depreciation account 1084005 had an balance of -\$2,177,517.30 after the above FLA DEPR REBAL entry. Most of this was due to the assets that were moved in the WWTP BLDS RECLASS entry to account 3547003.

The accumulated depreciation associated with the assets included in the WWTP BLDS RECLASS entry need to be moved to account 1084003 which is the accumulated depreciation account for assets in account 3547003.

The calculation is as follows:

=A/B*C

879814.08/5675690.93*(2177517.30) = (337546.64)

(A) 879814.08 = balance after adjusting reclassification entry @12/31/06

(B) 5675690.93 = corrected ending balance @ 6/30/06

(C) 2177517.3 = ending balance as of 12/31/06 before adjustments

-2,177,517.30

337546.64

-1,839,970.66 amount needed to correct accumulated depreciation

Please see entry below:

067*0647*1084005	ACCUMDEPR RECLASS	1839970.66	0
067*0647*1084003	ACCUMDEPR RECLASS	0	1839970.66

Which would reduce the balance in account 1084005 to -\$337,546.64.

Explanation: for CIAC Portion of Reclassification Entries

Part I: Reclassification of Asset Accounts

The ending balance of CIAC account 2721005 before adjustments in December of 2005 was \$2,835,346.01, there were no additions before the reclassification entry of \$2,394,137.61, and after the entry the ending balance was \$441,208.40

The reclassification entry reallocated \$2,394,137.61 from account 2721005 to 2721003. Please see entry below:

		DR	CR	Corresponding A/D Account	Corresponding Depr. Account	Exp.
067*0647	2721005 WWTP BLDG RECLASS	0	2394137.61	2723005	4073005	
067*0647	2721003 WWTP BLDG RECLASS	2394137.61	0	2723003	4073003	

The ending balance of CIAC account 2721003 before adjustments in December of 2005 was \$106,043.34, there was the addition of the reclassification entry of \$2,394,137.61, after the entry the ending balance was \$2,500,180.95

The total of the two plant accounts at the end of the year after all adjustments equaled \$2,941,389.35 (\$441,208.40+\$2,500,180.95).

Part II: Recalculation of depreciation expense and correcting entry to A/D

Account 4073005 had a depreciation expense for 2005 of \$81,090.84 at a rate of 2.86%

Account 4073003 had depreciation expense for 2005 of \$3,319.20 at a rate of 3.13%

The total depreciation expense for the two accounts for the year, before any adjustments was \$84,410.04

The adjustments for depreciation were made by correcting the depreciation rate for 2721005 and the balances reflecting the reclassification

Account 2721005 should have had a depreciation rate of 5.56% for 2005 so the depreciation expense for 2005 should have been \$245,115.58 (441,208.40 * .0556)

Account 2721003 used the correct depreciation rate, however they should have been multiplied by the balance after the reclassification which would result in a depreciation expense of \$78,255.66 (\$2,500,180.95 * .0313)

The total of the two combined depreciation expense accounts for 2005 should have been \$102,767.24 (\$24,511.58+\$78,255.66), into A/D but the balance was only \$84,410.04, so an entry had to be made to correct depreciation expense in the amount of \$18,357.20

067*0647*2723005	FLA DEPR REBAL	18357.2	0
067*0647*4073005	FLA DEPR REBAL	0	18357.2

This entry increased depreciation expense in account 4073005 by \$18,357.20, and decreased accumulated depreciation in account 2723005 by the same amount.

Part III: Recalculating Accumulated Depreciation

The accumulated depreciation account 2723005 had a balance of \$180,538.88 after the above FLA DEPR REBAL entry. Most of this was due to the assets that were moved in the WWTP BLDS RECLASS entry to account 2721003.

The accumulated depreciation associated with the assets included in the WWTP BLDS RECLASS entry need to be moved to account 2723003 which is the accumulated depreciation account for assets in account 2721003.

The calculation is as follows:

$$\begin{aligned} & \text{(A) } 441,208.40 = \text{balance after adjusting reclassification entry @ 12/31/06} \\ & \text{(B) } \# \# \# \# \# \# = \text{corrected ending balance @ 6/30/06} \\ & \text{(C) } 180,538.88 = \text{ending balance as of 12/31/06 before adjustments} \\ & 441,208.40 / 2,835,346.01 * (180,538.88) = (28,093.67) \end{aligned}$$

180,538.88
28,093.67
152,445.21 amount needed to correct accumulated depreciation

Please see entry below:

067*0647*2723003	ACCUMDEPR RECLASS	152,445.21	-
067*0647*2723005	ACCUMDEPR RECLASS	-	152,445.21

Which would reduce the balance in account 2723005 to \$28,093.67

Footnotes:

(a) Even though no amounts were transferred from plant account 3804005 to account 3547003, the accumulated depreciation transfer was necessary. There cannot be a balance in an accumulated depreciation account associated with a plant account that does not have a balance, therefore the entire amount in account 1084005 (Accumulated Depreciation for account 3804005) was transferred to account 1084003 (accumulated depreciation for account 3547003).

(b) The calculation for the amount transferred is as follows:

The amount in account 3804005 after the transfer divided by the balance of account 3804005 before the transfer, to get a percentage of the increase. This percentage is multiplied by the balance in account 1084005, to figure out the amount that should proportionally be in the account at the end of the transfer. From this amount subtract out the balance in account 1084005, to get the amount required for the "Accumdepr Reclass" entries, when the original asset transfer is from account 3547003 to 3804005.

Here is the actual calculation for sun 694: Bayside-

$(\$236,445.25/\$224,245.25)=1.06;$

$1.06*\$96,738.60=\$102,542.92;$

$\$102,542.92-\$96,738.60=\$5263.04.$

(c) Please see explanation for footnote (b).

(d) Same explanation as footnote (a), but instead of plant accounts, use CIAC accounts.

(e) Same explanation as footnote (b), but instead of plant accounts, use CIAC accounts.

(f) Same explanation as footnote (b), but instead of plant accounts, use CIAC accounts.
