The Glades County School District is aware of the progress that your company is making with the Florida Public Service Commission in developing utility services for properties in the western part of Glades County. This utility area will encompass the West Glades School and the other property the school district owns in this area. Please accept this letter as a request that the Glades County School District wants to be a member of your utility service for water and waste water service as soon as Silver Lake Utilities is operational.

Thank you for your strides to improve the quality of life for the citizens of Glades County.

Sincerely,

Scott Bass
Director of Administrative Services
