Dear Ms. Bayo,

070000

Attached is Miscellaneous Second Revised Sheet No. 4.11, Canceling First Revised Sheet No. 4.11. This sheet was modified to clarify the fee charged when a customer requests reconnection the same day or after hours following a non-pay disconnection at the pole. Additionally, the term "consumer" was replaced with the term "customer".

Please contact me if you have any questions regarding this filing.

Respectfully,

LEE COUNTY ELECTRIC COOPERATIVE, INC.

- 3.61 Non-Pay Disconnect Charge At The Pole. If the meter is inaccessible or if there is illegal diversion or meter tampering, the service will be physically disconnected at the pole. A One Hundred and Fifty Dollar (\$150.00) non-pay charge will be added to the account. If reconnection is made during business hours, the next day or any subsequent day, there is no additional charge. However, if the ~~customer~~consumer requests reconnection be made on the same day, or after business hours on any day, there will be an additional Two Hundred Dollar (\$200.00) reconnection charge.
- 3.62 Illegal Diversion And Meter Tampering Charge. The Cooperative retains title and ownership of the electric service equipment, including the meter. Should evidence of current diversion or meter tampering be found, a Two Hundred Dollar (\$200.00) charge, plus -equipment costs to rectify the account, plus a charge based upon a reasonable estimate of energy usage will be billed to the customer. Additionally, the customer may be subject to immediate disconnection of service or prosecution under Florida state law.
- 3.7 False Service Call Charge. In the event a customer requests the Cooperative to visit the location due to disruption of electrical service, and it is determined that the Cooperative is not responsible for the disruption, the customer may be charged either Thirty Dollars (\$30.00) for Meter Personnel, or Eighty Dollars (\$80.00) for Line Personnel's unnecessary service call. This fee will also apply when a customer requests the establishment or reconnection of service, but the location is not ready or suitable for an electrical connection to be established.
