Re: Old Town Village, St John's County, Florida

Dear Mrs. Bayó:

By January 20, 2006 letter to Rick Moses at the Commission, BellSouth informed the Commission that it would not be serving residents at the above development, since the developer had informed BellSouth that it had selected another communications provider and that BellSouth would not be permitted to place facilities and provide service at the development.

The developer, C. Atkerson, Inc., recently confirmed with BellSouth, by February 2, 2007 letter, that its agreement with the other provider, CTI, has ceased to exist and that it would like BellSouth to make communications service available to customers at the development.

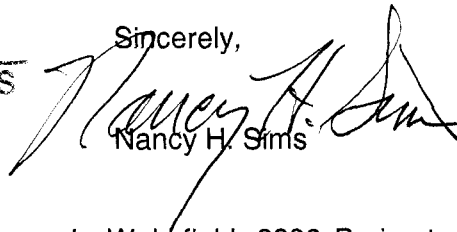

Section 364.025(6)(e) provides that, in such cases, BellSouth may require the developer to pay to BellSouth in advance costs that exceed the costs that would have been incurred to construct or acquire facilities to serve customers at the development initially, and that BellSouth shall have a reasonable period of time following the request from the developer to make arrangements for service availability. BellSouth is in the process of reviewing the development to prepare design plans and determine items that BellSouth will need from the developer to arrange for service.

BellSouth has informed the developer that it will take approximately 120 days from the date necessary items (for example, easements) are secured by BellSouth to arrange for service. BellSouth will proceed as quickly as possible, and subject to receipt of necessary items from the developer.
