The proceedings will be governed by the provisions of Chapter 120, Florida Statutes, Section 403.519, Florida Statutes, and Chapters 25-22 and 25-106, Florida Administrative Code.

Under Section 403.519, Florida Statutes, the Commission is the sole forum for the determination of need for the proposed electrical power plants. In making its determination, the Commission must take into account the need for electric system reliability and integrity, the need for adequate electricity at a reasonable cost, the need for fuel diversity and supply reliability, and whether the proposed plant expansions are the most cost-effective alternative available. In addition, the Commission must expressly consider the conservation measures taken by or reasonably available to FPL which might mitigate the need for the proposed plants and may consider other matters within its jurisdiction which it deems relevant. The Commission's determination of need for the proposed plants shall create a presumption of public need and necessity and shall serve as the Commission's report required by subsection 403.507(2)(a)2, Florida Statutes. An order entered by the Commission pursuant to this hearing shall constitute final agency action.

Only issues relating to the need for the proposed power plants will be heard at this hearing. Separate public hearings will be held before the Division of Administrative Hearings at a later date to consider environmental and other impacts of the proposed plants and associated facilities.

Members of the public who are not parties to the need determination proceeding will have an opportunity to present testimony regarding the need for the proposed plants. All members of the public who wish to offer testimony should be present at the beginning of the hearing, 9:30 a.m., Monday, April 16, 2007. All witnesses will be sworn in and will be subject to cross-examination at the conclusion of their testimony. By providing public testimony, a person does not become a party to the proceeding. Anyone wishing to become a party to this need determination proceeding should file an appropriate petition pursuant to Rule 25-22.039, Florida Administrative Code, with the Director of the Commission's Division of the Commission Clerk and Administrative Services at the address listed below. Copies of the petition should be sent by mail to all parties. Those wishing to intervene in these proceedings, unless appearing on their own behalf, must be represented by an attorney or other person who can be determined to be a qualified representative pursuant to Chapter 120, Florida Statutes, and Rule 28-106.106, Florida Administrative Code. Petitions for leave to intervene must be filed at least five (5) days before the final hearing, must conform with Rule 28-106.201(2), Florida Administrative Code, and must include allegations sufficient to demonstrate that the intervenor is entitled to participate in the proceeding as a matter of constitutional or statutory right or pursuant to Commission rule, or that the substantial interests of the intervenor are subject to determination or will be affected through the hearing.

GENERAL LOCATION AND PROJECT DESCRIPTION

FPL's proposal consists of two solid fuel coal-fired generating units, each having summer net capacities of approximately 980 MW for a combined net capacity of 1,960 MW. The plants are proposed to be located on a 4,900-acre site property located west of Lake Okeechobee, approximately four miles northeast of the town of Moore Haven in an unincorporated area of Glades County. The proposed in-service dates for the proposed units are June 1, 2013 and June 1, 2014. FPL indicates that it intends to pursue permitting on a schedule to allow for earlier in-service dates of late 2012 or early 2013 for unit 1, and late 2013 or early 2014 for unit 2, if possible.
