

VOTE SHEET

February 13, 2007

Docket No. 070022-EU -- Recommendation on Commission action regarding adoption of PURPA Standard 14, "Time-based Metering and Communications."

Issue 1: Should the Commission adopt new PURPA Standard 14?

Recommendation: No. Under the guidance of the PSC, Florida utilities already offer a variety of time-sensitive rates and load management options where such programs are cost effective. Adoption of Standard 14 will not materially further this activity and may result in requests for installation of equipment where it may not be cost effective.

APPROVED
