**Subject:** RE: UIF Staff request

Steve-  
Pinellas Co.

1. We bill the sewer for Pinellas County. The sewer usage for the Lake Tarpon Mobile Home Park is based on their water consumption, so when the meters read, we bill them for both water and sewer, and then reimburse the County for the sewer portion. That is why there is a bill-code (63722) for sewer in the E-14's, but they are not included on the E-2 Schedule for Pinellas County.

Pasco Co.

1. Billcode 61303 is for 1" General Service.
2. The E-2 does contain a typo, billcode "26210" should be "62610."

Seminole Co.

3. Actual consumption was 2,110
4. The second page of the E-14 schedule for sub 60010 should read "March 21 through December 31, 2005."

Thank You-  
Erin Povich

Erin,

I received a call from Sonica Bruce from the Florida PSC, she had the following questions:

2/28/2007

- Pinellas County
  - The E-2 schedule indicates no sewer billcodes. However, there are E-14s [63722] for sewer service. If I recall correctly Pinellas is water only. Please determine what additional E-14s were included.
- Pasco County
  - Billcode 61303 has conflicting information [residential v. general service]. Please confirm type of service.
  - 1" Commercial has conflicting billcode information [E-2 26210 and E-14 62610]. It sounds like a typo.
- Seminole
  - Billcode 60001 indicates a 755,000 consumption level. Seems too high please investigate.
  - Billcode 60010 has the incorrect billing period.

Sonica would like answers to these question by tomorrow. Thanks in advance for your help.
