COMMISSION CLERK

BY HAND-DELIVERY

Blanca Bayó
Director, Division of Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399

Re: Docket No. 060635-EU

Dear Ms. Bayó:

On behalf of Florida Municipal Power Agency (FMPA), JEA, Reedy Creek Improvement District (RCID) and City of Tallahassee (collectively, the "Applicants"), I enclose for filing in the above docket the original and fifteen (15) copies of the following:

- Applicants' Motion for Limited Reopening of Record and for Leave to File Supplemental Testimony; and
Pre-filed Supplemental Direct Testimony of Myron Rollins and Exhibit Nos. ___ (MRR-1S) and ___ (MRR-2S).

In light of the Motion for Limited Reopening of the Record, the Applicants hereby waive any applicable deadlines for Commission action under Rule 25-22.080, Fla. Admin. Code, to provide sufficient time for the reopening of the record and any subsequent proceedings.

ORIGINAL

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition To Determine Need For an
Electrical Power Plant in Taylor County by
Florida Municipal Power Agency, JEA, Reedy
Creek Improvement District and City of
Tallahassee.

DOCKET NO. 060635-EU

DATED: March 9, 2007

**APPLICANTS' MOTION FOR LIMITED REOPENING OF RECORD
AND FOR LEAVE TO FILE SUPPLEMENTAL TESTIMONY**

Florida Municipal Power Agency, JEA, Reedy Creek Improvement District and City of Tallahassee ("Applicants"), by and through their undersigned counsel, hereby move to reopen the record of this proceeding and for leave to file supplementary testimony for the purpose of revising certain evidence presented at the hearing in this matter. The Applicants further request that the Commission defer its consideration of the Staff's recommendation, currently scheduled for March 13, 2007, to allow sufficient time for the Staff and Intervenors to review the new information, and request a further evidentiary hearing, if needed, for the limited purpose of examining the revised evidence. In support, the Applicants state:

1. On September 19, 2006, the Applicants initiated this proceeding by filing a need for power application and supporting testimony. After an evidentiary hearing in January, 2007, the Staff of the Commission recommended that the Commission grant the need for power application based on the record of the hearing. At its regularly scheduled agenda conference on February 13, 2007, the Commission voted to defer consideration of the Staff's recommendation until the next agenda conference of March 13, 2007.

2. Within the past several days, it has come to the Applicants attention that certain revised assumptions should be incorporated in the production cost modeling used to determine the economic effect of the City of Tallahassee's participation in the Taylor Energy Center (TEC).

DOCKET NO. 060635-EU

02158 MAR-9 8

FPSC-COMMISSION CLERK

Since this information came to light, the Applicants have worked diligently to perform additional production cost modeling for the City of Tallahassee in order to incorporate the revised assumptions and to determine the resulting effect on the City's cost-effectiveness analyses. Changes also were made to the modeling of TEC for the other Applicants and those results have likewise been reviewed for any changes in cost-effectiveness.

3. To ensure that the Commission can base its final decision on the most accurate information available, the Applicants' respectfully request leave to file the supplemental testimony and Exhibit Nos. __ (MRR-1S) and __ (MRR-2S) of Mr. Myron Rollins being submitted contemporaneously with this motion. In the proffered testimony, Mr. Rollins explains the revisions to the City of Tallahassee modeling and the results of the modeling using an algorithm developed specifically to account for operating constraints on the City's system. As Mr. Rollins' supplemental testimony explains, similar changes for the other Applicants are not necessary because the other Applicants do not have the same or similar constraints on their systems as does the City. However, in an effort to impose the most conservative of constraints on the cost-effectiveness analysis, additional modeling analyses also have been performed assuming TEC will be dispatched as a "must run" unit, meaning that each Applicant must take at least its respective ownership share of the minimum output of TEC for every hour TEC is available to operate. As Mr. Rollins' supplemental testimony explains, the updated modeling results are consistent with those previously presented in this proceeding and continue to demonstrate that TEC is the most cost-effective and best overall option to meet each of the Applicants need for capacity and fuel diversification.

4. The Applicants recognize that the Commission, Commission Staff, and the Intervenor will desire to review the new information submitted with this motion. Accordingly, the Applicants respectfully request that the Commission defer its consideration of the Staff's

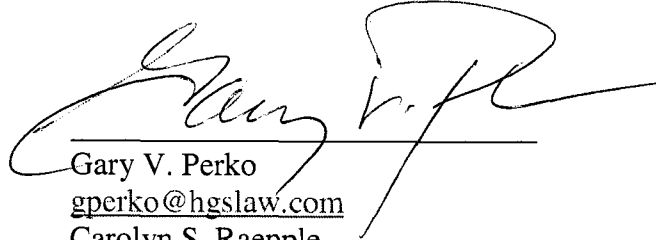

recommendation, currently scheduled for March 13, 2007, in order to allow sufficient time for the Staff and Intervenors to review the new information, and request a further evidentiary hearing, if needed, for the limited purpose of taking testimony and evidence relating to the revised modeling discussed in this motion and the supplemental testimony proffered herewith.

5. In accordance with Rule 28-106.204(3), Fla. Admin. Code, counsel for the Applicants has attempted to contact counsel for all of the parties to this proceeding. Staff counsel takes no position on the motion. Counsel for all of the intervenors indicated that they do not object to the relief requested provided that they have the opportunity to conduct discovery and cross-examine Mr. Rollins under oath.

WHEREFORE, Florida Municipal Power Agency, JEA, Reedy Creek Improvement District and the City of Tallahassee (collectively, the "Applicants"), for the reasons stated above, respectfully request move to reopen the record of this proceeding for the limited purpose of revising certain evidence and for leave to file supplementary testimony for the purpose of revising certain evidence presented at the hearing in this matter. The Applicants further request that the Commission defer its consideration of the Staff's recommendation, currently scheduled for March 13, 2007, to allow sufficient time for the Staff and Intervenors to review the new information, and request a further evidentiary hearing, if needed, for the limited purpose of examining the revised evidence.

RESPECTFULLY SUBMITTED this 9th day of March, 2007.
