**FLORIDA POWER & LIGHT COMPANY'S
AMENDED REQUEST FOR CONFIDENTIAL CLASSIFICATION**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") requests confidential classification of certain confidential information provided to the Florida Public Service Commission ("the PSC or the Commission") in connection with FPL's Petition to Determine Need for FPL Glades Power Park Units 1 and 2 Electrical Power Plant ("the Confidential Information"). In support of its request, FPL states:

Justification for Confidential Classification

1. The Confidential Information is contained in documents provided to the Commission in connection with FPL's Petition to Determine Need for FPL Glades Power Park Units 1 and 2 Electrical Power Plant. A Notice of Intent to seek confidential treatment was filed on February 1, 2007, concurrently with the filing of FPL's Petition and supporting documentation.

2. The Request for Confidential Classification was initially filed on February 22, 2007. This document replaces and amends the initial Request for Confidential Classification.

3. The Confidential Information for which FPL seeks confidential classification contains or consists of confidential proprietary business information of FPL

FPSC-COMMISSION CLERK

and third parties. The confidential information is contained in the pre-filed direct testimony of William H. Damon III filed in support of FPL's Petition to Determine Need for FPL Glades Power Park Units 1 and 2 Electrical Power Plants.

4. Confidential proprietary business information contained in Mr. Damon's pre-filed direct testimony contains or consists of information relating to the price for major equipment in Units 1 and 2 and the engineer/procure/construct ("EPC") contract. This includes, but is not limited to, the cost of major equipment and the EPC contract pricing. This information is proprietary and confidential to FPL and third parties, and FPL has a duty not to disclose this information. Disclosure of this information could impair the competitive interests of the vendors and the EPC contractor and jeopardize their ability to negotiate contract terms. Disclosure of this information also would substantially impair FPL's prospective ability to solicit bids, to the detriment of FPL and its customers. This type of information is confidential pursuant to section 366.093(d) and (e), Florida Statutes.

5. The material for which confidential classification is sought is intended to be and has been treated by FPL and third parties as private and confidential and has not been publicly disclosed. The Confidential Information for which FPL seeks confidential classification will continue to be confidential for more than 18 months; therefore, FPL seeks confidential classification for 36 months with the opportunity to request continuation of the confidential classification.

6. A non-redacted copy of the confidential documents, with all Confidential Information highlighted, was attached to the February 1, 2007, Notice of Intent. Exhibit C to this Request is a line-by-line justification of the confidential status of the

Confidential Information. The statutory bases for FPL's assertion of confidentiality with regard to each document or portion thereof are set forth in Exhibit C under the column titled "FLORIDA STATUTE 366.093(3)." The letters in that column refer to the subsection(s) of Section 366.093(3) that provide justification for FPL's request. Further support for FPL's Request for Confidential Classification of the referenced material is provided through the affidavit of William H. Damon III, included as Exhibit D to this request.

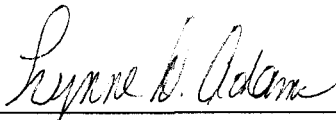

7. Upon a finding by the Commission that the information highlighted in Exhibit A, and referenced in Exhibit C, is proprietary confidential business information, the information should not be declassified for a period of at least eighteen (18) months and preferably 36 months. The material should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business. *See* § 366.093(4).

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavits included with this request, Florida Power & Light Company respectfully requests confidential treatment of the confidential proprietary

business information provided to the Florida Public Service Commission in connection with FPL's Petition to Determination Need for FPL Glades Power Park Units 1 and 2 Electrical Power Plant.

Respectfully submitted this 15th day of March, 2007.

Exhibit D

AFFIDAVITS

EXHIBIT D

AFFIDAVIT OF WILLIAM H. DAMON III

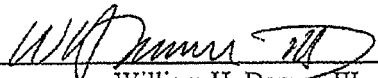

STATE OF FLORIDA)
)
COUNTY OF MIAMI-DADE)

BEFORE ME, the undersigned authority, this day personally appeared William H. Damon III, who, first being duly sworn, deposes and states:

1. My name is William H. Damon III. I am employed by Cummins & Barnard, Inc. ("C&B") as the Chief Executive Officer (CEO). The services C&B were retained by Florida Power & Light Company ("FPL") to perform an independent detailed review of the installed cost estimate for FPL Glades Power Park ("FGPP").
2. My testimony discusses the scope and results of my review which concludes that the estimated installed cost for FGPP are reasonable and competitive. Information within my testimony relating to the price for the Unit 1 and 2 major equipment and the engineer/procure/construct ("EPC") contract should be treated as confidential.
3. I have reviewed FPL's Request for Confidential Classification for Certain Information Filed in Connection with its Petition for Determination of Need (the Request). The representations FPL makes in its Request regarding Confidential Information are true and correct. The information that FPL identifies as Confidential Information is proprietary and confidential, the disclosure of which would be harmful to FPL, the vendors who responded to FPL's competitive solicitation for major equipment bid, the EPC contractor, and FPL's customers. This information is treated by FPL as confidential.

4. FPL seeks to protect information identified as confidential and provided to FPL by vendors that responded to the competitive solicitation and by the EPC contractor. This includes, but is not limited to, the cost of major equipment and the EPC contract pricing. Disclosure of this information could impair the competitive interests of the vendors and the EPC contractor and jeopardize their ability to negotiate contract terms. Disclosure of this information also would impair FPL's prospective ability to solicit future bids, to the detriment of FPL's customers. This type of information is contained in my direct testimony for which FPL seeks confidential classification of certain portions pursuant to section 366.093(3)(d) and (e), Florida Statutes.

5. Affiant says nothing further.

William H. Damon III

SWORN TO AND SUBSCRIBED before me this 20th day of February, 2007, by William H. Damon III, who is personally known to me or who has produced _____ (type of identification) as identification and who did take an oath.
