Subject: RE: Dkts. 070244 and 070245 + 070182

Yes, it is correct.

To recap

* Documents requesting confidential classification (RCC) were submitted from TEC, Gulf, and Progress at nearly the same time in response to the IOU deposit report. These documents were inadvertently placed into the same docket. They were later separated per the request memo (DN 02933-07).

* TEC documents (DN 02537-07, 02538-07, & ~~02542-07~~) remain in the original docket (070182)

* The RCCs for Gulf and Progress were subsequently moved into newly created dockets (070244 and 070245, respectively, as shown below)

* Documents numbers as listed below are correct for Gulf.

* Document numbers as listed below are correct for Progress.

* An RCC from FP&L was also submitted in response to this report. It is in a fourth, separate docket (070240).

Lisa, on 04/05/07, we received a memo from you (DN 02933-07) asking us to create two new dockets using DNs. 02554-07 and 02663-07. These two documents are confidential and have other related documents.

I want to confirm that your request includes:

DNs 02553-07, 02554-07 for new docket (070244) for Gulf Power,

and

DNs. 02662-07, 02663-07, 02664-07, and 02665-07 for the new docket (070245) for Progress Energy.

Please let me know if this is correct. Thank you.
