Tallahassee, FL 32301

Re: Docket No. 060122-WU - In re: Joint petition for approval of stipulation on procedure by Aloha Utilities, Inc. and Office of Public Counsel.

Dear Mr. Deterding:

Staff needs the following information to complete our review of the installation of chloramination facilities by Aloha Utilities, Inc. (Aloha or utility).

By Order No. PSC-06-0169-S-WU, issued March 1, 2006, the Commission approved a stipulation on procedure between Aloha and the Office of Public Counsel (OPC), in which the Commission will process a limited proceeding application by the utility and will not expand the scope of the proceeding beyond issues related to the chloramination facilities and the additional water purchased (including the cost of any interconnection facilities, any required impact fees, and any related reduction in Aloha's water treatment costs). Moreover, by Order No. PSC-06-0270-AS-WU, issued April 5, 2006, the Commission approved a settlement agreement between Aloha and the OPC which stated that the recovery of the portion of the cost that related solely to the use of hydrogen peroxide may be litigated in Phase III of the limited proceeding for the anion exchange treatment facilities. In effort to comply with the above requirements and to address customer concerns, please provide the following requested information.

1. When were the chloramination facilities placed into service?
2. The following questions relate to the hydrogen peroxide treatment option which was explored by the utility.
 - (a) provide a detailed description of all work done for this treatment option (include a breakdown of any piping or other constructed facilities installed for this treatment option and the commencement and ending dates related to work performed for this treatment option);

DOCUMENT NUMBER DATE
03279 APR 17 06
PSC-COMMISSION CLERK

Mr. F. Marshall Deterding

- (b) provide a copy of all invoices associated with this treatment option; and
- (c) for any invoice that related to the hydrogen peroxide treatment option and other non-related work, provide a breakdown for the total amount for the hydrogen peroxide treatment option and explain why any amount on the invoice does not relate to the hydrogen peroxide treatment option.

Please submit the above information to the Office of the Commission Clerk by May 17, 2006. If you have any questions, please contact me by phone at (850) 413-7017 or by e-mail at bart.fletcher@psc.state.fl.us.

Sincerely,

Bart Fletcher
