Subject: RE: New dockets 070320 and 070321

The name change is fine and yes the two documents go into the respective dockets of the same title. Thanks

Subject: New dockets 070320 and 070321

Good afternoon Connie,

We have opened 2 new dockets per your requests to establish dockets. I changed the titles slightly to keep them consistent with other filings, by putting the utility name at the end of the title. Please advise if this is acceptable to you.

Docket 070320 is:

Petition for approval of tariff provisions relating to installation of underground distribution facilities and customer applications relating to underground service and relocation of facilities, by Tampa Electric Company.

and Docket 070321 is:

Petition for approval of tariff revisions related to calculation and collection of contributions-in-aid-of-construction, by Tampa Electric Company.

Also, are these dockets being opened pursuant to petitions filed on 5/7/07 and placed in the undocketed matters (DNs 03828-07 and 03829-07)? If so, do you want those documents moved to these new open dockets? If not, I'll leave them in undocketed matters.

Thank you for your help.

Dorothy
