TO: Peter H. Lester, Economic Analyst, Division of Economic Regulation

FROM: Denise N. Vandiver, Chief of Auditing, Division of Regulatory Compliance & Consumer Assistance

RE: Docket No: 070001-EI; Company Name: Florida Power and Light Company;
Audit Purpose: Capacity Cost Recovery Clause Audit;
Audit Control No: 07-022-4-3;

Attached is the final audit report for the utility stated above. I am sending the utility a copy of this memo and the audit report. If the utility desires to file a response to the audit report, it should send the response to the Division of Commission Clerk. There are confidential work papers associated with this audit.

DIVISION OF REGULATORY COMPLIANCE AND CONSUMER ASSISTANCE
AUDITOR'S REPORT
May 8, 2007

TO: FLORIDA PUBLIC SERVICE COMMISSION AND OTHER INTERESTED PARTIES

We have performed the procedures enumerated later in this report to meet the agreed upon objectives set forth by the Division of Economic Regulation in its audit service request. We have applied the procedures to the attached schedules prepared by Florida Power and Light in support of its filing for capacity docket 070001-EI.

This audit is performed following general standards and field work standards found in the AICPA Statements on Standards for Attestation Engagements. This report is based on agreed upon procedures which are only for internal Commission use.

OBJECTIVES AND PROCEDURES:

Objective: The objective was to determine if capacity revenue and kilowatt hours sold were accurately reported.

Procedures: We prepared a schedule of revenues from FPL's Revenue and Rate Reports which summarize FPL's billing. We computed the factors by rate code and compared them to the last Commission order for capacity. We selected some customer bills from various rate classes to verify that the proper capacity rate factors were used. No errors were found.

Objective: The objective was to verify that the true-up was calculated correctly.

Procedures: The true-up was recalculated and the interest rates were traced to the approved interest rates established by the Commission. We traced the prior period true up to the last audit workpapers. No errors were found.

Objective: The objective was to verify that the costs agree to the general ledger and can be substantiated with source documentation and that the correct jurisdiction factor was properly applied.

Procedures: We reconciled the filing to the general ledger. We tested one month of Unit Power Sales (UPS) charges by tracing the schedule to invoices.

We traced the short-term capacity purchases to invoices for one month and to a contract.

We verified that transmission revenues from non-separated sales are credited to the capacity clause by reviewing the itemized account detail and tracing it to invoices and the financial accounting system. The treatment was compared to Commission Order PSC-00-1744-PAA-EI.

For qualifying facilities, we traced the general ledger amount to the Estimated Purchase Power Sales Billing Summary and reviewed the true-up of the prior month's estimate.

We prepared a schedule of the St. Johns River Power Plant (SJRPP) capacity charges for one month and traced it to FPL's accrual. For the same month we traced the components such as debt service and transmission to schedules provided by Jacksonville Electric Authority (JEA). We reconciled the decommissioning costs to a Commission order. The deferred interest for SJRPP was traced to the general ledger. We obtained a letter estimating property tax from JEA and used it to calculate the monthly accrual.

SJRPP Energy Suspension payments were traced to an accrual worksheet. The debt and equity component from that worksheet was traced to prior audits.

For Transmission of Electricity by others, we traced one month's charges to invoices and transmission reports prepared by FPL's Energy Marketing and Trading.

We reconciled the Okeelanta settlement to the general ledger and recalculated the amortization. We traced the amount to the prior audit and Commission Order PSC 00-2341-FOF-EI.

No errors were found in any of the costs reviewed.

Objective: The objective was to verify that security changes included in the capacity filing are incremental to security charges in base rates.

Procedures: We determined total security costs, removed base costs established in prior audits and verified that the costs included were incremental. We also selected a sample of charges to the security cost accounts included in the filing and traced them to invoices. The accruals made through journal entries were also reviewed.

The sample testing also included the relocation costs of the newly hired employees to accommodate the the Nuclear Regulatory Agency security program. The costs for two employees appeared to be high. See audit finding number 1.

Objective: The objective was to determine if the Nuclear Regulatory Commission fee and the recoverable portion of the incremental fee increase amount are consistent with the percentage approved for recovery through the clause according to Commission Order PSC-03-1461-FOF-EI.

Procedures: We obtained and traced the invoices, reviewed the order and FPL's calculation of non-recoverable expense. No errors were found.

CONFIDENTIAL
