Re: Docket 060038-EI, Return of Sensitive Information concerning FPL'S 2004/2005 Storm Cost Audit, Audit No. 05-292-4-1, Documents 01399-06 and 02574-06

Dear Ms. Smith:

Thank you for May 25, 2006, response concerning my letter of May 4, 2006.

I believe we have reached an agreement regarding the status of FPL's confidentiality request concerning audit working papers 46 through 46-16/20 (102 pages). The current updated FPL request still indicates that most of these working papers remain sensitive. These letters only address changes to that small, specific portion of FPL's request.

FPL has indicated that their only concern with these materials is that the social security numbers within this information remain confidential. This letter describes the steps staff has already taken as well as the steps we propose to take to protect this social security information.

During the field audit, PSC staff obtained 98 pages of materials which contain employee social security numbers. On February 17, 2006, these 98 pages along with other working papers identified as sensitive at the audit exit conference were filed by the staff (Document 01399-06).

On March 22, 2006, FPL requested that certain materials which were gathered during the audit be granted a confidential classification. This request included copies of the 98 pages which contain social security numbers (Document 02574-06).

On May 4, 2006, I updated the audit working papers and sent 98 pages containing the social security information from document 01399-06 to FPL. My May 4, 2006 letter also pointed out other minor problems within FPL's filing concerning other employee information (affecting 4 additional pages).

On May 25, 2006, FPL responded that from the working papers under discussion (102 pages) only the social security numbers were considered confidential.

To close this matter, I have requested the Bureau of Records and Hearing Services return the 98 pages of highlighted social security numbers which were filed by FPL in document number 02574-06. When these materials from the Bureau of Records and Hearing Services are returned to FPL, these sensitive social security numbers will no longer be held by the Commission. Further as all social security numbers are returned, I plan to recommend that the remaining information on the 102 working papers which were discussed become public record.

Lastly for clarity and to correct typographical errors, I am providing a table below with a full accounting of the working papers affected and staff's plan on how to proceed with this material. Please advise if this accounting meets FPL's intentions.

I talked with Ms. Jones and explained that the order had been issued and the time for filing for reconsideration has passed. She explained that the resolution directs the clerk to send a copy of the resolution to each PSC commissioner. I gave her the Commission's address. She will also send a copy of the resolution to CCA for the docket file.

The Commissioners for the City of Margate have passed a resolution in opposition to the FP&L surcharge. They directed the Clerk, Ms. Jones, to send a copy of the resolution to EACH member of the PSC. She wants to know their names and addresses.

I suggested that before she send anything that she allow me to find out what the proper protocol should be.

Q: Have you received similar requests or resolutions from other cities?

Q: What docket is this in? If it is an open docket, who is the OPR/GCL staff handling?

I suggest that we forward the information to the appropriate staff in GCL for handling. What do you think?

(I am going to arrive @ 9:00 on Monday and go directly to a meeting, please follow-up/handle with copy to me.)

Thanks!!!

Special Agenda Monday to Consider FP&L's Petition for Storm Recovery Financing

TALLAHASSEE — The five-member Florida Public Service Commission will convene a special agenda conference Monday, May 15, 2006, at 1:30 p.m. to consider a staff recommendation relating to a petition by Florida Power & Light, Inc. for a storm recovery financing order.

The company filed a petition January 13 seeking recovery for damages incurred during the 2004 and 2005 hurricane seasons, and requesting funds to establish a reserve for future storms. In April, the Commission conducted three days of evidentiary hearings on the utility's request. All filings related to the petition are available on the Commission's website under Docket Number 060038.

FP&L Storm Request Should be Reduced, PSC Staff Recommends

TALLAHASSEE — Florida Power & Light's request to recover 2005 hurricane-related costs should be cut by \$98 million according to a Public Service Commission staff recommendation filed Tuesday.

The 237-page non-binding recommendation is scheduled to go before the Commission May 15 at 1:30 p.m.

The utility filed a petition in January seeking to issue bonds to reimburse its 2005 hurricane season restoration costs, estimated at \$826 million, in addition to \$213 million remaining to be collected for the 2004 hurricane season and \$650 million to establish a reserve for future hurricane seasons.

Based on the record evidence from three days of hearings on FP&L's petition, Commission staff recommends the utility be permitted to collect \$728 million reimbursement for the 2005 storm season, \$198 million reimbursement for the 2004 storm season, and establish a reserve of \$200 million, representing a total reduction of \$562 million from FP&L's request.

Sections 119.071(5)(a)2. and 3., Florida Statutes provide:

“....2. An agency shall not collect an individual's social security number unless authorized by law to do so or unless the collection of the social security number is otherwise imperative for the performance of that agency's duties and responsibilities as prescribed by law. Social security numbers collected by an agency must be relevant to the purpose for which collected and shall not be collected until and unless the need for social security numbers has been clearly documented. An agency that collects social security numbers shall also segregate that number on a separate page from the rest of the record, or as otherwise appropriate, in order that the social security number be more easily redacted, if required, pursuant to a public records request. An agency collecting a person's social security number shall, upon that person's request, at the time of or prior to the actual collection of the social security number by that agency, provide that person with a statement of the purpose or purposes for which the social security number is being collected and used. Social security numbers collected by an agency shall not be used by that agency for any purpose other than the purpose stated. Social security numbers collected by an agency prior to May 13, 2002, shall be reviewed for compliance with this subparagraph. If the collection of a social security number prior to May 13, 2002, is found to be unwarranted, the agency shall immediately discontinue the collection of social security numbers for that purpose.

3. Effective October 1, 2002, all social security numbers held by an agency are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This exemption applies to all social security numbers held by an agency before, on, or after the effective date of the exemption....”

Thus, Social Security numbers held by the Commission are *Per Se* confidential for the entire time these materials are held by the Commission. We are modifying staff's working papers and returning the social security number information to the utility. In order to do, 3 copies of the sensitive material must be created. One copy creates a “blocked out” version of the working paper. This blocked out version of the working paper is then copied twice to create one final redacted copy to update the working papers, and one redacted copy for the utility to update materials presented at the audit exit conference. The audit exit conference is held pursuant to Rule 25-22.006(3)(a)2., Florida Administrative Code.

Ultimate disposition of the these sensitive working papers is as follows:

Staff's original working paper is sent to the utility;
The “blocked out” copy of the original working paper is sent to the utility;
The revised redacted and still sensitive staff working paper is sent to the utility; and
The redacted working paper (now the new original) is placed in the sensitive audit files.

FLORIDA PUBLIC SERVICE COMMISSION **BULLETIN**

PROVIDED TO GOVERNMENT OFFICIALS

Petition for Issuance of a Storm Recovery Financing Order by **Florida Power & Light Company**

DOCKET NO. 060038-EI

In January 2006, Florida Power & Light Company (FPL or the company) filed a petition with the Florida Public Service Commission (PSC or Commission) for approval of a Storm Charge to recover prudently incurred storm restoration costs and to replenish the company's Storm Damage Reserve.

The PSC has scheduled four customer service hearings March 1-3, 2006 to receive customer testimony regarding the utility's petition to implement a Storm Charge and to receive comments on the utility's recovery efforts for each hurricane event. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters in this case.

FPL serves approximately 4.3 million retail customers in its service area in Florida. Its service area is comprised of approximately 27,000 square miles in 35 of the state's 67 counties, encompassing the cities of Daytona Beach, Fort Lauderdale, Fort Myers, Miami, Naples and West Palm Beach and other densely populated areas on the east and west coasts of Florida. FPL also serves a number of less densely populated areas, including all or portions of Martin, Saint Lucie, Indian River, Brevard, Charlotte, Desoto, Columbia, Highlands, Okeechobee, Seminole and Union Counties.

In 2005, FPL and its customers were subjected to an extremely destructive hurricane season. Hurricanes Dennis, Katrina, Rita, and Wilma impacted some of the most densely populated areas in FPL's service territory in Palm Beach, Broward, and Dade counties where 60% of FPL's customers reside. For 2005, the total storm related damages to date are currently estimated by FPL to be \$906 million. The company expects to receive an insurance reimbursement of \$27 million for damage to generation assets. The company also expects to record \$64 million in capital costs. The net amount charged to the Storm Damage Reserve associated with the 2005 storm season is expected to be \$815 million.

In the instant petition, FPL requests that the Commission issue a Financing Order and approve the issuance of storm-recovery bonds in the amount of up to \$1,050 million. The proceeds of the bonds are intended to provide FPL recovery of the remaining unrecovered balance of 2004 storm costs of \$213 million, recovery of the 2005 prudently incurred storm costs of \$815 million, replenishment of the Storm Damage Reserve to a level of

approximately \$650 million, and recovery of interest incurred through the bond issuance date and up-front bond issuance costs of \$23 million. The bonds will be issued for the after-tax value of storm restoration costs to recognize the tax benefit received when storm restoration costs are deducted for income tax purposes. An issuance of storm-recovery bonds as proposed by FPL is expected to result in a monthly charge of \$1.58 for the typical residential bill (1,000 kWh) over a period of approximately 12 years, which will replace the 2004 Storm Restoration Surcharge of approximately \$1.65 for the typical residential bill.

However, in the event the Commission determines that FPL should not issue bonds to recover the deficit in the Storm Damage Reserve and replenish the Reserve, the Company requests that the Commission approve an alternative method of recovering storm-recovery costs and replenishing the Reserve through a storm surcharge over a three-year period. FPL asks that the proposed surcharge alternative be implemented for bills rendered on and after June 15, 2006. FPL estimates that this new monthly charge would be \$5.19 for a typical (1,000 kWh) residential bill for a three-year period. In combination with the 2004 Storm Restoration Surcharge, which would remain in effect through approximately February 2008, this would produce a total monthly storm-related charge of \$6.84 (1,000 kWh) on customer bills.

The technical portion of the administrative hearing is scheduled for April 19, 20, and 21 in Tallahassee. A technical hearing is a legal proceeding, similar to a court proceeding or trial, that is held to gather technical evidence and testimony related to the utility's petition. In making its final determination, the Commission will consider the evidence and testimony presented by both customers and other parties.

PSC staff is scheduled to file a recommendation with the Commission on May 8, 2006. The Commissioners are expected to vote on this matter at the May 15, 2006, Special Agenda Conference.

Subject: Confidential filing

Marguerite, Patrick Bryan from FPL just called (returning my call from yesterday about the extra copy of the confidential filing we got in 060038). He said they'd inadvertently given Tim a copy of the confidential; they'd meant to just give him a courtesy copy of the NOI.

Bottom line, Lynn Adams or Bill Feaster will be by today to get that extra copy. I told him we'd have it ready!

Thanks.

Kay
