Questions/Comments:

Dear Governor,

Well it's happening again! Now I know you will not read this but, do try. I have just read that the Public Service Commission has unanimously approved another pass along expense from Progress energy to the customer. Per an article in the business section of the St. Petersburg Times, Page 1, the Crystal River Plant is sending too much hot water into the gulf and they must build additional cooling towers at a cost of \$516 million each, and maintaince costs of \$3 to \$4 million per year!! The PSC has approved this and okayed the cost be passed on to the customer!! Does any public utility ever have a responsibility to operate efficiently or plan realistically?? Why should they? The PSC rubber stamps anything they request!

Have you looked at the difference between an electric bill last year and this year for the same kilowatt hour usage? Come on. If you want to be more than a one term governor, do something except photo ops.
