**Statement by  
GOVERNOR CHARLIE CRIST  
Regarding the PSC's Decision on the Glades Power Park**

"I applaud the Florida Public Service Commission's decision to deny Florida Power & Light Company's petition seeking approval to construct a coal-fired power plant in Glades County. The Public Service Commission today made the right decision for the environment, the right decision for the Everglades and the right decision for Florida.

"I congratulate the commissioners on their unanimous vote and commend them for their leadership on behalf of the people of Florida. I have been concerned about both the proposed technology and the location of the Glades Power Park. For those reasons, I believe the Public Service Commission has made the right choice.

"As we seek to address the challenges presented by global climate change, leadership of the caliber demonstrated today by the Public Service Commission will be essential to our success."

**Subject:** FW: No to Coal!

Commissioner McMurrian,

This is in response to your e-mail message to me below. It's not clear whether the web site link in question was sent in an individual capacity or not. Even assuming, worst case, that it was not, however, I have scanned the web pages and it appears they contain general allegations only about coal-fired generation. For example, they contain assertions about levels of emissions from coal-fired power plants, etc. (Some of these assertions are sourced to a Texas chapter of the Sierra Club.) I did not see anything specific to the Taylor County or Glades need determinations proceedings.

I believe reading the web pages would be similar to reading general news articles (i.e., items in the public domain) about coal-fired power plants. I'm not sure how much value there is in looking at the web pages, but I would not view doing so as an *ex parte* contact. If you decide to review the web site, however, care would need to be taken not to base a decision in a record proceeding on the allegations contained there.

While it would be difficult to put all of the information from the web site into the docket, we could file a copy of the transmittal e-mail (which contains the cite for the link to the web page). I will ask Ann Cole to put a copy of the transmittal e-mail into the correspondence files for the two need determinations. Please let me know if you have additional questions about this

Would you please let me know if this is something I can review? I haven't looked at the website, but you can't miss the subject line. I just didn't know if this is an individual consumer or someone acting on behalf of a group. Please advise.

Thank you,

Marguerite, those documents were handed to me in the hearing room and Mr. Gross was going to question witness on them, but then decided he would question another witness later on. So as far as I know they haven't been marked yet.

**GLADES POWER PARK NEED DETERMINATION HEARING SET  
FOR MONDAY**

**TALLAHASSEE** — The Florida Public Service Commission (PSC) will conduct a need determination hearing on Monday for a proposed Florida Power & Light (FPL) electrical power plant in Glades County, Florida.

This hearing provides the utility, other interested parties, and the public the opportunity to present evidence and testimony concerning the need for the proposed plant. As part of the need determination process, the PSC must consider the need for electric system reliability and integrity, the need for adequate electricity at a reasonable cost, the need for fuel diversity and supply reliability, and whether the proposed plant expansions are the most cost-effective alternatives available.

Only issues relating to the need for the proposed power plant will be addressed at this hearing. All members of the public who wish to offer testimony should be present at the beginning of the hearing set for the following time and location:

**Monday, April 16, 2007**

**9:30 a.m.**

Betty Easley Conference Center  
Joseph P. Cresse Hearing Room (Room 148)  
4075 Esplanade Way  
Tallahassee, Florida

The PSC is committed to making sure that Florida's consumers receive their electric, natural gas, telephone, water, and wastewater services in a safe, affordable, and reliable manner. The PSC exercises regulatory authority over utilities in the areas of rate base/economic regulation; competitive market oversight; and monitoring of safety, reliability, and service.
