**REQUEST FOR CONFIDENTIAL CLASSIFICATION  
AND MOTION FOR A TEMPORARY PROTECTIVE ORDER**

Tampa Electric Company ("Tampa Electric" or "the company"), pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, hereby requests confidential classification of certain highlighted information contained in portions of its answers to the Florida Public Service Commission Staff's First Request for Production of Documents (Nos. 2 and 4) and as grounds therefore, says:

1. The confidential information in question appears on Bates stamp pages 55-57, 59-62, 78-108, 110-132 of the company's answer to Staff's First Production of Documents (Nos. 2 and 4) (referred to as the "Confidential Information"). Single yellow highlighted copies each of Bates stamp pages 55-57, 59-62, 78-108, 110-132 containing the Confidential Information are being separately filed with the Commission this date. Attached hereto as Exhibit "A" are two public redacted versions of each of the pages in question with the Confidential Information removed.

2. This request is also intended to serve as a request for a temporary protective order within the contemplation of Rule 25-22.006(6)(b), Florida Administrative Code, such that it will protect the confidential information from public disclosure while it is in the possession of the Office of Public Counsel.

DOCUMENT NUMBER-DATE

FPSC-COMMISSION CLERK

3. Attached here as Exhibit "B" is a justification for designating the confidential information proprietary confidential business information under the above-referenced statute and rule.

4. Subsection 366.093(1), Florida Statutes, provides that any records "found by the Commission to be proprietary confidential business information shall be kept confidential and shall be exempt from s.119.07(1) [requiring disclosure under the Public Records Act]." The proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms. (Section 366.093(3)(d), Florida Statutes)

5. Proprietary confidential business information also includes:

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. (Section 366.093(3)(e), Florida Statutes)

6. The Confidential Information falls within the above statutory categories and, thus, constitutes proprietary confidential business information entitled to protection under Section 366.093 and Rule 25-22.006.

7. The material for which confidential classification is sought is intended to be and is treated by Tampa Electric as private and has not been disclosed.

WHEREFORE, Tampa Electric respectfully requests that the highlighted Confidential Information set forth in its Answers to Staff's First Production of Documents (Nos. 2 and 4) be accorded confidential classification and protection from public disclosure and the subject of a temporary protective order for the reasons set forth above.

DATED this 2<sup>nd</sup> day of July 2007.

Respectfully submitted,

---

**FROM:** Martin Duff

**DATE:** May 5, 2006

**SUBJECT:** Gen-2006-03 Big Bend Coal Bid Solicitation

Tampa Electric Company conducted a bid solicitation on February 16, 2006, to secure supply of approximately 650,000 tons of spot coal for Big Bend station for the remainder of 2006. Attached are the results of this bid solicitation. Based upon the results of the solicitation, Tampa Electric desires to enter into contracts with the following suppliers:

Vendor	Quantity	Timeframe	\$/mmBtu Delivered Cost	Other
Knight Hawk	300,000	April-December 2006		
Smokey Mountain Coal Company	300,000	April-December 2006		
Emerald International	30,000	1 <sup>st</sup> Quarter 2006		
American Coal	24,000	April 2006		

The purchase price for the coal from Knight Hawk is [REDACTED]  
Knight Hawk offered to [REDACTED]

The purchase price for the coal from Smokey Mountain Coal Company is [REDACTED]  
[REDACTED]. Smokey Mountain offered to [REDACTED]  
[REDACTED]

The coal offered from The American Coal Company is priced attractively and we have done business with The American Coal Company for quite some time. The chlorine in this coal is relatively high as compared to other Big Bend coals, so its use at Big Bend will be limited. This is a continuation of the evaluation of this coal to see how it operates in the unit before going forward with any additional purchases of this coal. American Coal was very aggressive in pricing for this reason.

Overall, the pricing of these bids is in line with our coal budgeted numbers for the fuel clause. Therefore, I recommend these purchases be entered into by Tampa Electric.

**FROM:** Martin Duff

**DATE:** December 15, 2006 Revised June 21, 2007

**SUBJECT:** Gen-2007-01 Big Bend Coal Bid Solicitation

Tampa Electric Company conducted a bid solicitation on November 15, 2006, to secure supply of approximately 400,000 tons of spot coal for Big Bend station for 2007. Attached are the results of this bid solicitation. Transportation prices from the 4<sup>th</sup> quarter 2006 were used in this spot evaluation. Based upon the results of the solicitation, Tampa Electric desires to enter into contracts with the following suppliers:

Vendor	Quantity (tons)	Timeframe	\$/mmBtu Delivered Cost	Other
Smokey Mountain Coal Company	300,000	January - December 2007		
Emerald International	3,000	January 2007		
Alley Cassidy Coal Company-distressed coal at TBT	600 mol	February 2007		

As shown on the attached solicitation results SMCC was not the lowest priced coal offered. Two separate offers of coal from the Powhattan mine in southern Ohio were offered at very aggressive prices. Both offers were considered non conforming due to the high sulfur content. Our portfolio of coal contracts currently has 660,000 of coal exceeding 5.5lbs S02 and adding to that number could cause Tampa Electric to exceed our emission limits. The offer of additional tons of Knight Hawk was rejected for the same reason.

For these reasons a contract was entered into with the Smokey Mountain Coal Company. The purchase price for the coal from Smokey Mountain Coal Company is [REDACTED]. Tampa Electric [REDACTED].

Two other small purchases of salvage coal were made in the first quarter of 2007. The price of both of these purchases is below the lowest offered in the Gen 2007-1 solicitation.

- 
- (1) The information contained on the listed pages reveals details of the winning bids submitted in response to Tampa Electric's RFP and subsequent negotiations with the suppliers. Since Tampa Electric purchased fuel from the winning bidders, their identities are known through monthly solid fuel procurement reporting. However, disclosing the information in the bidders' confidential proposals and the results of Tampa Electric's negotiations would discourage those bidders from participation in future RFPs as they do not desire for their competitors to have access to the terms and conditions under which they will bid on RFPs and the contractual terms they will agree upon. Public disclosure of the information contained on these pages would adversely affect the competitive interests of the bidders and the ability of Tampa Electric to contract for goods and services on favorable terms.

This information is competitive contractual information, the disclosure of which would be harmful to the position of the suppliers in negotiating future contracts with other clients. Disclosing this information would also harm Tampa Electric's position in future RFPs and contract negotiations since the future suppliers' bid responses could be influenced if they had knowledge of previous or current contract rates. The disclosure of this information would therefore be harmful to competitive interests and to the ability of

Tampa Electric to contract for goods and services on favorable terms, and as such, the information is entitled to confidential treatment pursuant to Section 366.093(d) and (e), Florida Statutes.

- (2) The information contained on the listed pages contains bid information provided in response to Tampa Electric's RFP. Disclosing bidders' identities and information about their confidential proposals would discourage those bidders from participation in future RFPs as they do not desire for their competitors to have access to the terms and conditions under which they will bid on RFPs. As such public disclosure of the information contained on these pages would adversely affect the competitive interests of the bidders and the ability of Tampa Electric to contract for goods and services on favorable terms. The disclosure of this information would therefore be harmful to competitive interests, and as such, the information is entitled to confidential treatment pursuant to Section 366.093(d) and (e), Florida Statutes.
- (3) The information contained on the listed pages is Tampa Electric's bid evaluation which reveals contractual data about the 2006 contract rates that were paid for transportation services under Tampa Electric's current contracts with its trucking services provider and TECO Transport. This information is competitive contractual information, the disclosure of which would be harmful to the position of the transportation providers in negotiating future contracts with other clients. Disclosing this information would also harm Tampa Electric's position in determining rates for future transportation contracts since the providers bid responses might be influenced if they had knowledge of the current contract rates. As such public disclosure of the information contained on these pages would adversely affect the competitive interests of Tampa Electric and its ability to contract for goods and services on favorable terms. The disclosure of this information would therefore be harmful to competitive interests, and as such, the information is entitled to confidential treatment pursuant to Section 366.093(d) and (e), Florida Statutes.
- (4) The information contained on the listed pages reveals details of the winning bids submitted in response to Tampa Electric's natural gas RFP and subsequent negotiations with the suppliers. Disclosing bidders' identities, information in their confidential proposals and the results of Tampa Electric's negotiations would discourage those bidders from participation in future RFPs as they do not desire for their competitors to have access to the terms and conditions under which they will bid on RFPs and the contractual terms they will agree upon. Public disclosure of the information contained on these pages would adversely affect the competitive interests of the bidders and the ability of Tampa Electric to contract for goods and services on favorable terms.

This information is competitive contractual information, the disclosure of which would be harmful to the position of the suppliers in negotiating future contracts with other clients. Disclosing this information would also harm Tampa Electric's position in future RFPs and contract negotiations since the future suppliers' bid responses could be influenced if they had knowledge of previous or current contract rates. The disclosure of this information would therefore be harmful to competitive interests and to the ability of Tampa Electric to contract for goods and services on favorable terms, and as such, the

information is entitled to confidential treatment pursuant to Section 366.093(d) and (e), Florida Statutes.
