COMMISSION CLERK

Dear Sir/Madam:

TeleCommunication Systems, Inc. (TCS) is pleased to submit our application for Competitive Local Exchange Carrier (CLEC) status to the Florida Public Service Commission. Enclosed you will find one (1) original and two (2) copies of the application and a check for the \$400 application fee.

TCS currently provides wireless and VoIP E911 call routing and caller data to Public Safety Answering Points in the State of Florida. It is our intention to begin offering Internet Protocol (IP)-based selective routing, Automatic Location Indicator (ALI) database service, and Master Street Address Guide (MSAG) validation services in competition with existing 911 system service providers. Please note that TCS does not propose to offer telephone service (dial tone). Our services are limited to the routing and management of 911 calls on behalf of PSAPs and/or telephone service providers.

We believe that this application establishes that we are qualified to be granted a certificate by the Florida Public Utility Commission. As a company, we are financially and technically able to meet the quality of service requirements, and the award of CLEC status to TCS is in the public interest.

Please feel free to contact the undersigned at (206) 792-2224 or via e-mail at [ddickinson@telecomsys.com](mailto:ddickinson@telecomsys.com) with any questions or comments. We look forward to providing telecommunication services in the State of Florida.

Sincerely,

Richard H. Dickinson  
Senior Director, Public Safety
