ECR _____
GCL _____ Staff requests late filing this recommendation August 17, 2007, to allow further managerial review. This recommendation is to respond to a petition by FPUC for mid-course correction to its fuel factors filed August 1, 2007, so the discovery period and recommendation review period were very compressed in this case.

Case Background

By Order No. 13694, issued September 20, 1984 in Docket No. 840001-EI, the Commission required each investor-owned electric utility (IOU) to notify the Commission when its “projected fuel revenues” were expected to result in an over- or under recovery in excess of 10 percent of its “projected fuel costs” for the given recovery period. Depending on the magnitude of the over- or under recovery and the length of time remaining in the recovery period, a party may request, or the Commission may approve on its own motion, a mid-course correction to the utility’s authorized fuel-cost-recovery factors.
