Case Background

On November 6, 2006, the Commission issued Order No. PSC-06-0924-TRF-EI, approving Florida Power and Light Company’s (FPL) green pricing program, the Sunshine Energy Program. In general, green pricing programs allow interested customers to voluntarily contribute towards renewable generating resources, which are often higher in cost than fossil-fuel based generation. The Sunshine Energy Program is a voluntary program, in which participating residential and commercial customers are charged \$9.75 per month in addition to each customer’s charges under the applicable rate schedule. In return for each \$9.75 customer contribution, FPL purchases the renewable energy credits associated with 1,000 kilowatt-hours (kWhs) of renewable energy. In addition, FPL has committed to the development or purchase of 150 kilowatts (kW) of solar capacity within Florida for every 10,000 participating residential
