Re: Florida Power & Light's Notice of Intent to Request Confidential Classification of Materials Provided relating to FPL's Sunshine Energy Program.

Dear Ms. Cole:

Enclosed for filing on behalf of Florida Power & Light Company (FPL) are an original and two (2) copies of FPL's Notice of Intent to Request Confidential Classification regarding confidential information provided in response to Staff's Request for Information for the status of projects constructed under FPL's Sunshine Energy Program. The original includes Exhibit A and Exhibit B.

Exhibit A is a letter in response to Staff's request with the confidential information highlighted. Exhibit A is submitted for filing in a separate, sealed envelope marked "Exhibit A-CONFIDENTIAL INFORMATION." Exhibit B is FPL's response to Staff's request with the confidential information redacted. Also included with this filing is a computer diskette containing FPL's Notice of Intent to Request Confidential Classification, without Exhibits, in Word format.

Please contact me if you or your Staff has any questions regarding this filing.

Sincerely,

Natalie F. Smith, Esq.

This docketed notice of intent was filed with Confidential Document No. 09004-07. The document has been placed in confidential storage pending timely receipt of a request for confidentiality.

Docket No. 070626-EI  
Filed: October 1, 2007

**FLORIDA POWER & LIGHT COMPANY'S  
NOTICE OF INTENT TO REQUEST CONFIDENTIAL CLASSIFICATION**

Pursuant to Florida Administrative Code Rule 25-22.006(3)(a), Florida Power & Light Company ("FPL") files this Notice of Intent to Request Confidential Classification ("Notice"). This Notice relates to Staff's Request for Information for the status of projects constructed under FPL's Sunshine Energy Program, dated October 1, 2007, which is Attachment 1 to this Notice. This information is intended to be and has been treated by FPL as private and confidential and has not been publicly disclosed. A complete copy of FPL's response to Staff's request with the confidential information highlighted is enclosed in the envelope labeled "**Exhibit A CONFIDENTIAL INFORMATION.**" FPL, pursuant to Rule 25-22.006(3)(a) and (d), requests confidential handling of all confidential information furnished in response to this Staff request. Two copies of FPL's response to Staff's request with the confidential information redacted is attached as Exhibit B.

Respectfully submitted,

Natalie F. Smith  
Principal Attorney  
Florida Power & Light Company  
700 Universe Boulevard

**Subject:** Sunshine Energy data request

Katherine,

Can you please send me a written request for additional information concerning the status of installation of solar PV per the FPL-Green Mountain Energy contract so I can attach the written request to our Notice of Intent to seek confidential classification?

Thank you.

Natalie

Re: Florida Power & Light Company ("FPL") Sunshine Energy® Program Staff Request for Information

Dear Ms. Cole:

This letter is written in response to Staff's request for information regarding the status of solar projects constructed (or caused to be constructed) by FPL's Sunshine Energy Program. A notice of intent to seek confidential classification for the highlighted portions of this letter is being filed concurrent with this response.

FPL's Sunshine Energy® program reached the 10,000 customer increment milestones on the following dates:

10,000 customers:	January 2005
20,000 customers:	July 2005
30,000 customers:	February 2007

Thus, the Program's obligation is a total of 450 kW of solar capacity.

The status of various solar projects for the Sunshine Energy® program is currently as follows:

1. Rothenbach Park, Sarasota (250 kW): Installation of a 250 kW solar facility at Rothenbach Park, Sarasota County, Florida is expected to be completed in October 2007. The 1,200 PV panels (providing 250 kW of solar capacity) have been installed at the site. The only remaining work is interconnection with the grid.
2. The Quarry, Centex Homes, Naples (54kW): 54kW of solar arrays on new homes constructed in a subdivision in the FPL service territory have been installed.
3. Miami Science Museum (2 kW): A 2 kW solar facility has already been installed at the Miami Science Museum. The array was completed in April 2007.
4. SunSmart Schools projects (8 kW): Three 2 kW projects have been installed at three different schools: the M.A.S.T. Academy and South Miami Senior High, in Miami; and

Palm City Elementary School, in Palm City. An additional 2 kW project (for a total of 8 kW) has been installed at Edgewood Jr./Sr. High School, Merritt Island, and should be operational beginning in October 2007. The Program funded more than half the remaining cost for each project, beyond the SunSmart Schools award amount.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

A total of 314 kW of solar capacity should be installed by October, 2007.

The FPL Sunshine Energy® solar program is unique among the more than 700 utility green power programs in the nation. The Sunshine Energy® program is ranked third in the nation for residential customer participation by the U.S. Department of Energy's National Renewable Energy Laboratory. We believe that the solar capacity which has been installed as part of the Sunshine Energy® program may serve as an inspiration to programs in other states.

Should you have any questions, please do not hesitate to contact me at (850) 521-3920.

Sincerely,

Natalie F. Smith, Esq.
