I am very pleased with LWV -- Our water is excellent - We have a water softener and, therefore, no problems with taste, laundry; color is clear. I believe LWV is providing quality service <sup>& a rate increase is necessary,</sup> All water can be improved if the customer wants a higher quality of water. I believe LWV meets all state requirements for water quality & it is up to the individual to add water treatment equipment (from a reputable company) if that individual desires a higher quality. James Weeks has always promptly informed me when the wells or backup water supply is used... It always has more chlorine, which I am allergic to. He has always called or left a note on our door. He is aware of my chlorine issue and has taken his ~~own~~ <sup>own</sup> time to inform us. LWV

Carolyn M. Stroupe

deserves a ~~rate~~ rate increase. - We have no problems with water. Actually - we are happy with LWV. & service given.

I am very pleased with LWV's water as far as quality, price, and customer service. James Weeks has been the greatest at advising us of any changes that may effect us (well changes, etc) and is happy to answer any questions that we may have. I have lots of neighbors that feel the same way but were not able to attend the meeting. When I went to get some extra green sheets, like this one, for my neighbors, there were only a few left. I was advised that a previous lady had taken most of them. The lady they were speaking of had stood up in the meeting complaining about issues of several years past. People need to understand that city, county, and independent water companies meets or exceeds the standards for quality water and it is up to the customer to add softeners, RO's, etc. if they want the quality to meet their standards.

Thank You, Gary D. Carter
