RE: Docket No. 021067-WS-River Ranch Water Management, L.L.C.

We are in receipt of the staff recommendations concerning River Ranch properties and the proposed rate increases. In addition to our previous input, which is on record with your office, we would like to offer the following observations and requests:

1. We are still concerned about abnormal repairs being considered in the rate increase equation with normal maintenance since it is a known fact that the water and sewer facilities were in poor condition when acquired by the current owners.
2. ISSUE 15: Customer deposits for the RV Association are recommended in the proposed amounts of \$24.44 for water and \$32.60 for sewer for a total of \$57.04 per lot. While we are aware that the recommendation is for connections made after the stamped approval date, it is possible that this could impact the Association at some future date if Westgate develops more RV phases and then turns them over to River Ranch RV for inclusion in our Association as is alluded to in our documents concerning future additions of phase Vb. We would propose that deposits current or future be waived for the RV Association since funds are collected in bulk and paid by the Association as part of its' duties. Deposits in this circumstance is not necessary and would only accomplish an amount of funds to be held indefinitely by the utility.

Sincerely,

Ray Boyles, President
for The Board of Directors

RE: "~~Docket # 021007~~" WS, River Ranch Water Management, L.L.C."

Dear Director,

We are in receipt of a preliminary staff assisted rate increase proposal for River Ranch L.L.C. and would like to offer the following questions and observations:

1. The water and sewer plant was in poor condition at the time Westgate purchased the property and numerous repairs were necessary to bring the plant to proper operating condition. Are those repairs that would not normally recur annually part of the operating expenses for the test period? If so why? Repairs that are made less than on annual basis should be prorated over a longer period of time based on the life expectancy of the motor, part, etc.
2. Westgate plans to build many additional units which will add to the base consumer population of the utility. Are these units being considered towards a total revenue base to support the utility? Regardless of ownership these units should count equally towards the support of the utility services and adjustments made accordingly.
3. There are numerous commercial buildings being operated by Westgate, however, we find no contribution of revenue during the test period which would impact the overall income for the utility thereby reducing the shortfall for the same period. Was this considered?
4. It is particularly difficult to make a meaningful contribution to the rate proposal since not enough information was supplied in the notice. Such as, which entities contributed revenue during the test period and how much for each. What were the expenses? A detailed line item summary would be necessary to determine whether expenditures were appropriate and in line with the type and amount of service given.

JOB JOCKS

5. How was the preliminary rate proposal reached? What was the basis for the rate structure for each entity? A quick estimate of the current user base of the RV park, Long Hammock, Inns & Cottages and Country Side will produce a revenue of approximately \$264,000 which does not include a contribution from Westgate commercial buildings or future development, some of which should be occupied by mid summer of 2003. Assuming the cost of utility operation for this year is the same as the test period (\$213,000) an excess revenue will be generated in the amount of \$50,000 without consideration of additional users.

6. There are many other items that need further explanation which may not be clear to the normal user, not being familiar with utilities. Definitions for these items would be helpful. An overall explanation of the rate proposal and considerations would also seem to be in order.

We respectfully submit these questions and comments and look forward to your reply. We realize a rate increase is due and inevitable, our concern is that all parties pay a fair and appropriate share of the service burden.

Sincerely,

A handwritten signature in cursive script that reads "Ray Boyles".
