On January 22, 2008, I contacted the DEP Energy Office to inquire as to whether the DEP Energy Office was partnering with any entities on roof top solar projects. The purpose of the call was to obtain general information regarding on-going DEP Energy Office activities and initiatives related to PV solar and Florida's renewable energy policy. During the brief discussion DEP Energy Office (Tatum) advised that he had received a e-mail inquiry from Green Mountain Energy to perform a tracking function but did not remember the specific details of the request other than noting that the request was declined in his response to the e-mail due to resource limitations. Upon my request, he indicated that he would forward the e-mail to my aide if he was able to locate it on his computer. My aide subsequently received the e-mail from Mr. Tatum. In the interest of full disclosure, I have asked that my aide enter the e-mail into the correspondence side of the docket file for Docket No. 070650-EI and Docket No. 070626-EI; respectively. I have not read the e-mail, and I am not aware of its specific contents other than being advised that the salutation to my aide references the discussion that I had with Mr. Tatum. This narrative provides clarification regarding the conversation referenced within the e-mail that was sent to my aide.

Hello Jim. Thanks for your message. I have a couple topics I want to run by you in addition to your question.

1. On the subject of FPL verifying an applicant's receipt of a State rebate, you and I exchanged a couple emails back around Thanksgiving. You wanted to avoid increasing the workload to your dept., which I certainly respect!

In this round of the FPL Sun Funds we expect to process approx. 30 applications, spread out over a couple of months. Could I send you an email **every other week** (twice a month or so) with a few names/addresses to check whether they received a State rebate? It shouldn't be overwhelming.

2. What is the State residential p.v. rebate balance?

1/22/2008

3. We're looking to offer Sun Funds rebates even in the absence of State rebate money until the next appropriation. Nonetheless we still want to be aligned with and supportive of the FEO program. Along these lines, as the current State fund empties, will FEO still be accepting residential applications? If so, will those applications be placed in a queue until the fund is replenished in July?

4. Can we get some promotion for FPL Sun Funds on the FEO web site, such as a link to the Sun Funds web site? When the State money runs out would you be willing to let web visitors know that rebates are available from FPL? Let me know what is feasible.

As always, thanks for your suggestions and help. By the way, we update Sun Funds available balance on the web site each Friday afternoon:

John,

Glad to hear that the "ice has been broken" on the program. How is the receipt of a state rebate being verified by FPL? I don't recall any discussions on this subject, but then again I may have missed something in the email traffic.

Thanks,
