COMMISSION
CLERK

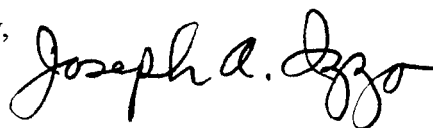

Dear Mr. Walden:

I am in receipt of your letter of January 31, 2008 concerning the above-referenced Application of Mad Hatter Utility, Inc. It is my property that is being requested for extension of water service and for inclusion in both water and wastewater service territories of Mad Hatter Utility, Inc. I recognize that the inclusion of my property in the wastewater service territory of Mad Hatter, could conceivably result in the required connection to the Mad Hatter wastewater system. However, there is no need for wastewater service at the present time, as I am on a septic system, and my discussions with the principals at Mad Hatter have left me with the conclusion they have no present intention of requiring connection to their wastewater system.

As such, I do believe that in the long run it is best to be in the wastewater service territory of Mad Hatter Utility, Inc., as well as to receive water service from them immediately. Therefore, I am in agreement with the extension of service to include my property in both the water and wastewater service territories of Mad Hatter.

If you need any further information from me, please don't hesitate to contact me.

Sincerely,

Joseph Izzo
