## PART I

## DEFINITIONS AND CLASSIFICATIONS

## 1.01 Definitions:

The following definitions set forth standard interpretations of certain terms used in these Rules and Regulations:

- (1) Company: Progress Energy, Florida Inc.
- (2) Customer: The user of the Company's electric service.
- (3) Service: The supply by the Company of electricity to the Customer, including the readiness and availability of electrical energy at the Customer's Point of Delivery at the required voltage and frequency whether or not utilized by the Customer.
- (4) Service Drop: That portion of the Company's facilities, between the pole or underground cable and the point of attachment at the service entrance, which brings the service from the Company's supply lines to the Customer.
- (5) Service Entrance: Wires and enclosures owned by the Customer and connecting the Customer's installation to the service drop.
- (6) Customer's Installation: Wires, enclosures, switches, appliances and other apparatus, including the service entrance, forming the Customer's facilities utilizing service for any purpose on the Customer's side of the point of delivery.
- (7) Point of Delivery: The point of attachment where the Company's service drop is connected to the Customer's service entrance. For underground service other than residential, the Customer's service entrance shall include conductors and raceway to a point designated by the Company generally the pad-mount transformer closest to the building.
- (8) Connected Load: The total rated capacity in horsepower (H.P.), and/or kilowatts (kW), and/or kilovolt amperes (kVA), of all electric equipment, appliances, apparatus and other current consuming devices which are connected in and to the Customer's installation and which may utilize service.
- (9) Maximum Demand: Highest integrated reading of Customer's electrical power requirements measured in kilowatts during the interval of time specified in the Rate Schedules.
- (10) Temporary Service: The supply of electricity by the Company to the Customer for construction purposes; or for fairs, displays, exhibits and similar services; and for other services which will be in use for less than a year.
- (11) Rate Schedules: The applicable schedules of rates and charges for service rendered which, from time to time, are on file with and approved by the Florida Public Service Commission having jurisdiction thereover, and under which service is rendered by the Company.

## 1.02 Service Classifications:

Service is classified for rate application purposes according to one of the following which best describes the Customer's electric service requirements:

- (1) Residential: Residential customers have the option of being served under one of the following rate schedules:
  - A. Residential Service (RS-1): Applicable to residential customers in a single dwelling house, a mobile home, or individually metered single apartment unit or other unit having housekeeping facilities, occupied by one family or household as a residence. The premises of such single dwelling may include an additional apartment with separate housekeeping facilities, as well as a garage and other separate structures where they are occupied or used solely by the members or servants of such family or household.
