Subject: Correction of In-service Dates in TEC's Petition for Approval of Standard Offer Contract

Dear Ms. Sickel,

On March 31, 2008, Tampa Electric Company filed its Petition for Approval of Standard Offer Contract for Small Qualifying Facilities and Producers of Renewable Energy that included a proposed standard offer based on a combustion turbine with an in-service of date of June 1, 2012. After filing the Petition, the company realized that its standard offer filing did not reflect certain updates that had been made to the company's expansion plan contained in its Ten Year Site Plan that was submitted on April 1, 2008. The company filed a Supplement to the Petition for Approval of Standard Offer Contract on April 22, 2008, to include a 2017 combined cycle as an available avoided unit and to update certain operating parameters and the in-service date associated with the 2012 combustion turbine. In the Supplement to the Petition, the change in the in-service date for the combustion turbine was incorrectly described as changing from 2010 to 2012 when in fact, the change was actually from June 1, 2012 to May 1, 2012. This error only occurred on the Supplement to the Petition and not within the tariff sheets that were included with the Supplement.

If you have any questions regarding this matter, please do not hesitate to call me at (813) 228-4490.

Barbara Benton
