Hong, it is a transfer and name change as specified in the rec.

Importance: High

Toni, the staff rec filed in Docket 080316 indicates the docket is a request for approval of transfer and **name change** on a shared tenant services certificate. However, the docket title in CMS only reflects it as being a request for approval of transfer of STS certificate. Please let us know as soon as possible which one is correct because we are doing the Agenda prep right now.

Thanks!
