ORDER SUSPENDING TARIFF

BY THE COMMISSION:

On May 7, 2008, Tampa Electric Company (TECO) filed a petition for approval of its standard interconnection agreement for non-export, parallel operators and associated tariff sheets 8.1110-8.1130. The non-export agreement would be applied to customers that install and operate electric generators of 10 megavolt-amperes (MVA) or less, that may operate in parallel with TECO's distribution system (13.2 kV and less). The generators must be used solely to offset all or a portion of the customer's electricity requirements or as back-up generation in the event of an electrical service outage. The generators must also be in compliance with national safety standards, the National Electrical Code, state and local building codes, mechanical codes, and electric codes.

Pursuant to Sections 366.04, 366.05, 366.81, 366.82, 366.91, and 366.92, Florida Statutes (F.S.), we have jurisdiction over this matter.

Pursuant to Section 366.06(3), F.S., we may withhold consent to the operation of all or any portion of a new rate schedule, delivering to the utility making the request a reason or written statement of good cause for doing so within 60 days. We require additional time to gather information and make an informed decision on TECO's proposed tariff. The reason stated above is good cause consistent with Section 366.06(3), F.S.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the standard interconnection agreement for non-export, parallel operators tariff filed by Tampa Electric Company shall be suspended. It is further
