AFFIDAVIT OF WILLIAM P. LABBE, Jr.

BEFORE ME, the undersigned authority, personally appeared William P. Labbe who, being first duly sworn, deposes and says:

1. My name is William P. Labbe. I am currently employed by Florida Power & Light Company ("FPL") as the Project Director for the Nuclear Power Uprate Projects. I have personal knowledge of the matters stated in this affidavit.

2. I have reviewed Exhibit C and the documents that are included in FPL's Request for Confidential Classification of Information Obtained in Connection with the Nuclear Uprate Review PA-08-01-002, for which I am identified on Exhibit C as the affiant. The documents and materials that I have reviewed are asserted by FPL to be proprietary confidential business information, including but not limited to: detailed project milestones, feasibility and scoping studies, economic and financial analysis, internal policies and procedures, reports to senior management and proprietary vendor information. Disclosure of this information would violate FPL's contract with its vendors, work to the detriment of FPL's competitive interests, and/or would impair FPL's efforts to enter into contracts on commercially favorable terms. Further, certain information claimed confidential contains or constitutes trade secrets. Exhibit C also references documents that in whole or in part, may violate security measures or may contain internal auditing controls and reports of internal auditors or information relating to same. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Affiant says nothing further.
